Presented by:
Everett Public Schools Foundation**

Dear Foundation Friend,

You are invited our 18th Annual Benefit Breakfast!

We are privileged to have Dr. Bette Hyde, Director of Early Learning for the State of Washington as our keynote speaker. Bette's focus is on creating one statewide early learning system that prepares all Washington children for school and life. She strongly believes that school-readiness means ready schools, ready children, ready families and ready communities.

Explore with us how our community, through the Everett Public Schools Foundation, can champion our youngest learners. Together, we can build a brighter tomorrow!

Please join us at our breakfast on March 8th, 2012 to learn how your support can make a difference in the lives and academic success of our students.

Table Sponsors:
