

## **STUDENTS**

### **Student Records**

The district shall maintain those student records necessary for the educational guidance and/or welfare of students, for orderly and efficient operation of schools and as required by law. All information related to individual students shall be treated in a confidential and professional manner. The district will use reasonable methods to ensure that teachers and other school officials obtain access to only those education records in which they have legitimate educational interests. When information is released in compliance with state and federal law the district and district employees are immune from civil liability unless they acted with gross negligence or in bad faith.

Student records are the property of the district but shall be available in an orderly and timely manner to students and parents/guardians, as well as to the state Department of Social and Health Services when a minor student has been found dependent and placed in state custody. A parent/guardian or adult student may challenge any information in a student record believed inaccurate, misleading or in violation of the privacy or other rights of the student.

The district will retain records in compliance with the current, approved versions of the [Local Government Common Records Retention Schedule \(CORE\)](#) and [School Districts and Educational Service Districts \(ESDs\) Records Retention Schedule](#), both of which are published on the Secretary of State's website.

Student records shall be forwarded to other school agencies upon written request from the school agency. A high school student may grant authority to the district which permits prospective employers to review the student's transcript. Parent/guardian or adult student consent shall be required before the district may release student records other than to a school agency or organization, except as otherwise provided by law.

A grade report, transcript, or diploma shall not be released until a student has made restitution for damages assessed as a result of losing or damaging school materials or equipment. If a student has transferred to another school district that has requested the student's records, but that student has an outstanding fee or fine, only records pertaining to the student's academic performance, special placement, immunization history and discipline actions shall be sent to the enrolling school. The content of those records shall be communicated to the enrolling district within two school days and copies of the records shall be sent as soon as possible. The official transcript will not be sent until the outstanding fee or fine is discharged. The enrolling school shall be notified that the official transcript is being withheld due to an unpaid fee or fine.

The superintendent shall establish procedures governing the content, management and control of student records.
