Resume Facts & Your Future Career!

Employers only spend **7 seconds** on average to scan a resume.

A poorly put together resume can **prevent** you from getting an interview.

Without an **interview**, there's no chance of getting the job!

Resume Facts & College!

Some **colleges** ask for resumes (or activity lists) as part of their applications.

Western Washington University

Activities list

We believe that ability and potential are measured by more than grades and test scores. Help us learn how you spend your time by providing a list of your most meaningful activities and achievements in grades 9-12. This could include areas like: community involvement, volunteer experience, employment, athletics, extracurricular clubs, arts, family responsibilities, or special awards and recognition.

Please list your activities in order of importance to you and be sure to include:

- The name of the organization or involvement
- Your position or role
- How long you have participated
- A short description about the activities that are most significant to you. You do not need to describe all activities.

If you submit your application online, you can either upload your activities list to your application or type the list directly within the online form. If you apply using the paper application, please attach your activities list to your application. There is no prescribed format for your activity list, but you can see some [activities list examples here](#).
