Address: 3900 Broadway, Everett, WA 98201

Community Partnerships

Students in grades K-12 experience in- and out-of-school learning in partnership with business, industry, government, nonprofit and post-high school education and training organizations. Student learning experiences focus on regional, high-demand career opportunities, which require mid-to high-level skills.

The workforce in Snohomish County is steeped in innovation

We have the state's highest concentration of manufacturing: 25 percent of the county workforce. Further, our county has the highest concentration of engineers in the state, working across multiple industries. Affordable housing and a desirable location and quality of life continue to attract a workforce that has grown by 20 percent over the past decade.

2nd

Nationally, Washington ranks **second in the nation** in concentration of STEM jobs.

20%

The Snohomish County **workforce has grown by 20%** over the past decade and continues to increase.

STEM

In 2017, **62% of Washington voters had heard of STEM**, almost double the percentage in 2013 (32%).

9M
STEM Jobs

The U.S. will have 9 million **STEM related job openings** by 2022.

A special thank you to **Economic Alliance Snohomish County** for their community engagement and ongoing district support.

School based learning

Students can take career and technical education (CTE) classes with specific career-building focus. Core courses also integrate career-building skills and knowledge and connect this learning to career opportunities.

Extended learning

Students build academic skills and discover their academic passions by taking part in learning experiences beyond the school day.

Work based learning

Students gain and apply work-related skills and knowledge in activities created by partnerships with industry and community professionals.

Career Pathways

Aerospace & Advanced Manufacturing

Energy & Sustainability

Medical & Health Careers

Information & Communication Technology

Education Careers

Business & Professional Services

Program vision » Once students have successfully graduated from high school, they are prepared to enter a career pathway, build academic, technical and workplace knowledge and skills and thus have seamless access to postsecondary credentials.
