Program Description
During 2019–2020 school year, the district is piloting a tuition-based “blended” preschool model, serving children with and without special needs at Silver Firs Elementary School. Silver Firs has two developmental preschool classes in which preschool age students with a range of disabilities, who are eligible for special education services, access their education. This pilot program will change the afternoon sessions of these developmental preschool classes into a “blended” model. This “blended” model consists of one teacher, two paraeducators and up to sixteen children – eight children with special needs and eight “community peers.”

The district is now seeking “community peers” to participate in the Silver Firs developmental preschool “blended” model, which is offered during the afternoon session Monday through Thursday from 12:45-3:30pm. The program’s core curriculum – Creative Curriculum - works on developmentally appropriate skills to support kindergarten readiness. In addition to their own learning, “community peers” play an important role in the learning of children with special needs. Once children have had an opportunity to transition into the classroom, “community peers” participate in the classroom routines alongside their peers with special needs. This program provides a wonderful opportunity for all students to prepare for kindergarten, learn to value diversity, recognize the gifts in each other, and be a role model.

We currently have limited openings for children who are 4-years old as of 8/31/2019. The monthly tuition is $275 and a down payment of $275 by check is required to participate as a “community peer.” There are three payment options with several different methods of payment (see tuition document).

Families should review the following list to determine if their child can independently demonstrate these pre-requisite skills. If they demonstrate independence, your child may be ready to participate as a “community peer” in the developmental preschool “blended” model:

- independently use the bathroom
- wash and dry their hands
- feed self with utensils
- drink from a cup
- answer yes, no questions
- follow simple directions
- work or play independently for at least five minutes
- demonstrate familiarity with basic classroom supplies
- attend to a short story
- wait for turn
- initiate interactions with peers
- share with peers

All of the preschool classrooms serve students with a range of special needs from physical to social-emotional. On occasion, “community peer” models might observe behaviors, emotional outbursts, or medical needs that they would not see in other pre-
school settings. It is important that the families of “community peers” are ready to answer the questions their children might have and support inclusive friendships.
