Our kindergarten transition program *Everett Ready* will be offered remotely on select dates during the week of August 17-21.

We are excited to welcome our youngest learners, and their families, as they begin their education journey. We will use Zoom to connect with students and families to prepare them for a remote start to school and begin building relationships between families and school staff.

In addition to the Zoom sessions for kindergarten students, school teams will hold a Zoom session for the adults in the student's lives. School leaders will share a vision for the fall and provide information regarding kindergarten.

*Family Connection* meetings will be on September 9, 10, 11 and will provide opportunities for families to meet individually with their child’s kindergarten teacher.

If your child is going to be five years old by August 31, it is time to register for kindergarten and participate in *Everett Ready!* Register online at www.everettsd.org/enrollment
