

September 1, 2020
Good afternoon EPS staff!

There is nothing more exciting than the start of a new school year. I hope you had a refreshing break this summer. I know these last several weeks you have been working hard training and preparing for an amazing start to a school year that looks a little different. I could not be more excited! We have one week to go and I hope you are feeling energized as well.

We created a little video for the start of the school year working off the theme [Adventure Together](#). I hope you like it! It is a good reminder to just go all out and give our best for our students. It is available with multiple language subtitles on our website.

I also want to let you know that tomorrow we are launching Parent University (will go live Wednesday morning). After remote learning in the spring we heard feedback from our parents they need more support and more information during remote learning. Parent University is an on-demand resource created to help parents and guardians become full partners in their child's education. They have access to on-demand content to view at their leisure. This resource, found on the COVID-19 2020-21 web page, is a great resource for your families and will gain more resources throughout the year.

Thank you for being a great team. I look forward to this being a year for great student academic success!

Be well,

Ian
