

## Checking Student Activity for a Course in Canvas

When in your course, select People from the menu on the left:

The people list will show an overview of the people connected to your class including parents (observers). To see only students, select students from the drop-down list at the top.

The image shows the Canvas 'People' page. The 'Everyone' tab is selected. The search bar shows 'Student (28)' and a red arrow points to the dropdown menu. A tooltip explains that selecting 'Student' filters the list to only show students. The table below shows a list of students with columns for Name, Login ID, SIS ID, Section, Role, Last Activity, and Total Activity. A red arrow points to the 'Last Activity' column header with a tooltip explaining that it shows when the student was last active in the class.
