THOUGHTS

Key Thoughts

Challenge the kids that are meeting educational targets To ensure kids stay engaged and not bored, kids that are excelling should have the opportunity to more challenging assignments

4.2 ★★★★★ (46 👤)
Ranked #1 of 684

In person school 5 days a week Good for student's learning and emotional health

4.2 ★★★★★ (45 👤)
Ranked #2 of 684

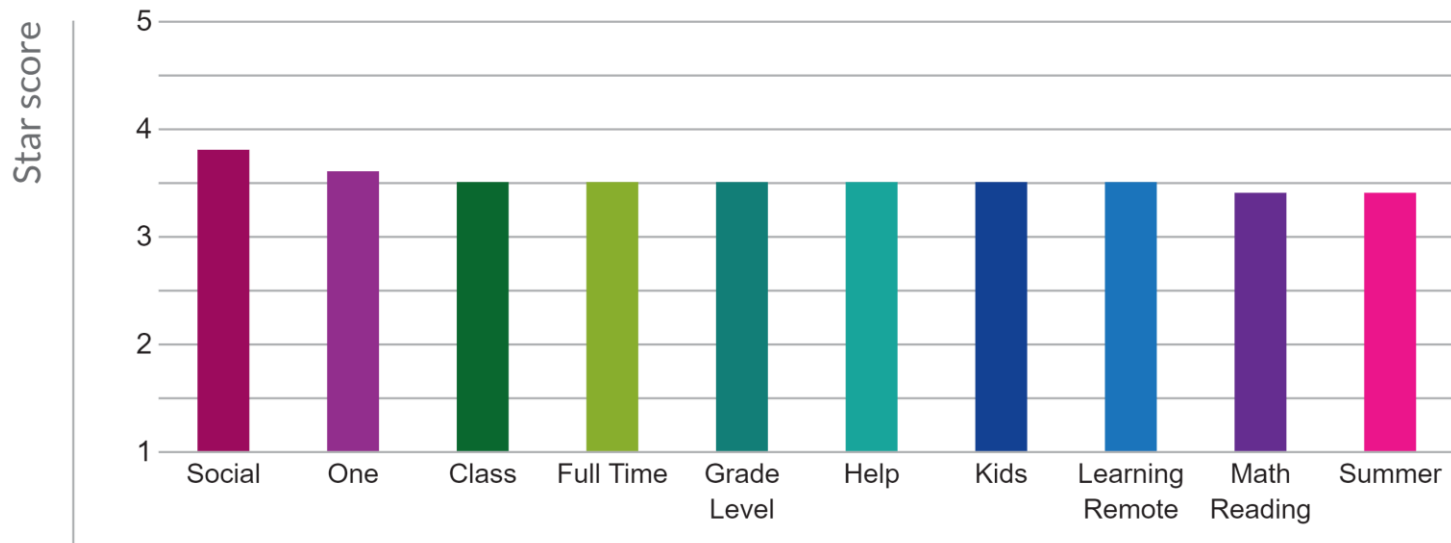

Give parents an advance on how in person school is going to look like next year Parents need to know the expectations in order for us parents to prepare our kids emotionally for the next school year.

4.1 ★★★★★ (47 👤)
Ranked #3 of 684

Top Themes

THOUGHTS

Social

Open interest clubs, sports, after school activities etc. Students need healthy outlets, there is a huge spike in students struggling socially and emotionally.

4.1 ★★★★★ (40 👤)

Provide more social opportunities for kids With remote schooling this year, kids have had very little opportunities to socialize. Mental health and cooperative learning is important.

4.0 ★★★★★ (45 👤)

Social Interaction in-person With 100% remote option, provide an avenue like social gatherings where kids can come and meet other kids

4.0 ★★★★★ (45 👤)

THOUGHTS

One

Children who are struggling should have the opportunity for one on one help and tutoring. Not all parents are able to help their students understand the material being covered in class.

4.1 ★★★★★ (46 👤)

Offer sports opportunities for everyone. Physical activity is one of the best ways to cope with stress

3.9 ★★★★★ (47 👤)

My kids learn better when they have a set schedule. I value the one on one support on Math and Reading. One on one support groups give my kids the confidence and set schedule they need.

3.9 ★★★★★ (43 👤)

THOUGHTS

Class

More teacher instruction. Less asynchronous learning. It seemed like some her teachers didn't do a lot teaching and would end class early every day for independent work. I feel like she had very little

4.0 ★★★★★ (44 👤)

Small class sizes More individualized help

4.0 ★★★★★ (16 👤)

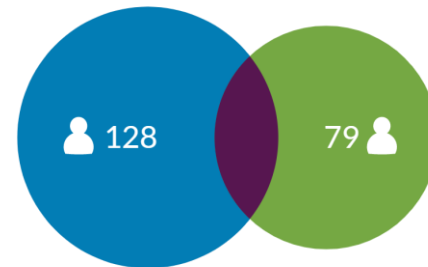

Going back to school more than just two days a week. In person class is a lot better

3.9 ★★★★★ (47 👤)

DIFFERENCES

Remote Learning | Remote Learning [128 | 79]

Side A

Open up the schools! That's where they learn! Bars, gyms, restaurants seem more important than schools!

★ 5.0 ★ 1.3

Returning to 100% in person learning

There really is no substitution for the support they receive by teachers. Asynchronous days provide no instruction and feedback is limited.

★ 4.9 ★ 1.6

Side A/B Common (high)

Children who are struggling should have the opportunity for one on one help and tutoring. Not all parents are able to help their students understand the material being covered in class.

★ 4.4 ★ 4.6

Extra help for kids who want/need

it Anyone should be able to request extra help if they don't understand or need more explanation.

★ 4.2 ★ 4.7

Side B

Provide 100% Remote learning Option with less screen time Provide a way for less screen time. Kids eye sight is impacted due to long online hours. Given the COVID right now, some families may want remote 100%

★ 1.5 ★ 4.6

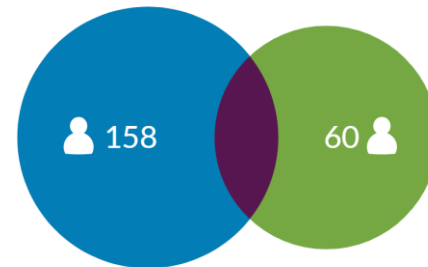

We like 100% remote learning. We will prefer 100% remote learning next year too. We want our family to be safe. Staying home is the safest option.

★ 1.4 ★ 4.8

DIFFERENCES

Summer | Small Group [158 | 60]

Side A

Perhaps have an extended school year to (early return) to catch - get on same page for 2021-2022. Some students may be missing key concepts

★ 4.6 ★ 1.0

Go back to 100% in person learning Zoom learning is not sufficient. You need to clearly commit to 100% in person learning next year or detail the case number threshold to do so.

★ 4.5 ★ 1.2

Side A/B Common (high)

In-person 5 days a week It will help students get more engaged in school specially because there are some students that struggle with remote learning.

★ 4.6 ★ 4.0

Kids goes to the school every day. They needs friends and social skills with friends.

★ 4.7 ★ 3.6

Side B

Tell a small interesting and motivating story before teaching any lesson. A connecting story with lesson is better, even not it is OK. A smooth transition into the lesson makes comfort learning. every new lesson is completely strange may lead to frustration when they can't understand.

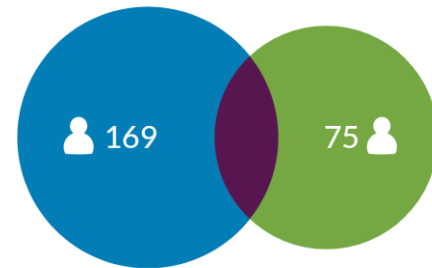

★ 2.3 ★ 4.7

I love our school district! thanks for all the hard work during these unexpected global changes. Our teachers and administrators are fantastic! Our children, families, and entire community benefit when the school district cares

DIFFERENCES

Learning Year [169 | 75]

Side A

It's hard to say until we know whether school will still be hybrid in the fall.

★ 4.3 ★ 1.1

Small groups, one-on-one support, clear schedules, short time on zoom meeting, build a more personal relationship with children and parents, I think it is important to communicate with parents at all times with interpreter if needed

★ 4.5 ★ 1.7

Side A/B Common (high)

Letting parents know before the end of the school year how your child is doing. It has all been guess work until report card time. It's important so we know how to help our child

★ 4.6 ★ 4.1

Challenge the kids that are meeting educational targets To ensure kids stay engaged and not bored, kids that are excelling should have the opportunity to more challenging assignments

★ 4.5 ★ 4.1

Side B

No thoughts
