

Year-End (2021) Student Device Collection

High School Devices

- Collecting all high school devices, charging cord, digital pen, and hotspots
 - * Exception students attending summer school.
 - End of summer collection is important to then reimage student computers
- Building-specific schedule-During the week of May 24 to May 27 Scott Jenkins will host meetings to determine specifics of collection and outlines for deploying for the start of school
- Collection of technology - June 18-23 – combined with collecting other school materials at each school's designated locations
 - Seniors will be collected before June 21st based on the day selected by each high school

Middle School Devices

- Collecting 8th graders devices, charging cords, digital pens/stylus
 - Exception students attending summer school
 - End of summer collection is important to then reimage student computers
- Grades 6-7 keep their technology over the summer
 - Collect all grades devices, charging cords, digital pen/stylus, and hotspots from those who will be leaving the district
- Building-specific schedule-During the week of May 24 to May 27 Scott Jenkins will host meetings to determine specifics of collection and outlines for deploying for the start of school
- Collection of technology - June 18-23 combined with collecting other school materials at each school's designated locations

Elementary School Devices

- Collecting 5th graders devices, charging cords, digital pens/stylus
 - * Exception students attending summer school.
 - End of summer collection is important to then reimage student computers
- Grades K-4 keep their technology over the summer
 - Collect all grades devices, charging cord, and hotspots from those who are leaving the district.
- Schools are planning their collection of technology along with other school materials following this format:
 - June 18: Group B students
 - June 21: Group A and remote students (drop off)

Attendance-June 21st

- Asynchronous attendance rules for the last day will include either following remote guidelines with participation cutoff at the end of the school day **OR** completion of an online participation form provided to schools by LMS.

FAQs

- What if an elementary or middle school wants to collect devices anyway or parents decide they want to check in the device?
 - There is nothing to stop them from doing that. The site would just need to store the devices (probably in the library).
- What if 8th grade students need a high school device for Summer School?
 - There will be technicians onsite at EHS and CHS all summer. The students can make an appointment with the online booking application and can trade the Chromebook for a high school device.
- What if elementary or middle school students need to trade in a device that isn't working during summer months?
 - There will be designated locations throughout the district where our technicians will be hosting summer hours for these trade ins. Students will use Bookings to schedule a time to do this.
