

For any test that has the **Text to Speech**, **Dictionaries** and **Translation** option enabled, students can access their Text to Speech settings by following the directions below:

2. From there, they can toggle to **Text to Speech** in the **Accessibility Settings** box and click the **On** button. Then close.

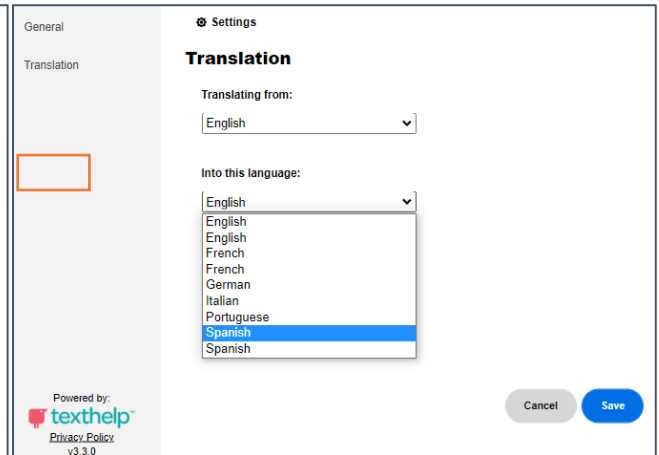

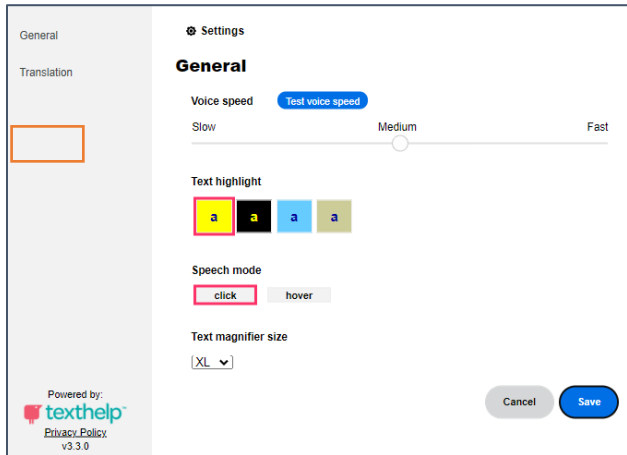

4. Students can highlight a word in the assessment question and then click the **translation** icon

to translate the word. Students will need to click the

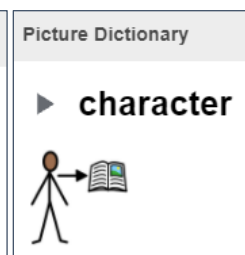

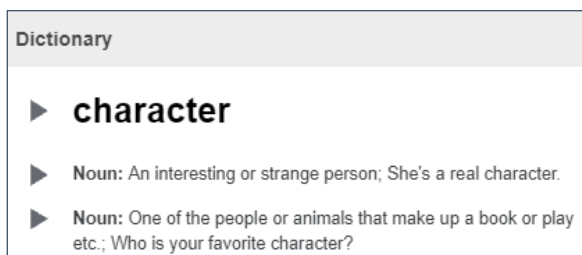

settings icon to choose their translation settings.

5. Students can highlight a word and then click on the dictionary icon to get a **definition** of the

selected word. Students can also click on the picture definition icon instead.

6. When a test has multiple sections, students will need to adjust this setting for each section.
