### **Procedure 4411P Working Relationships with Law Enforcement, Child Protective Services, and the County Health Department**

Revisions are from WSSDA and comply with House Bill 1140, a new state law that requires law enforcement to connect youth to an attorney for consultation prior to conducting an interrogation. This attorney consultation can occur in person, by phone, or via video and it cannot be waived. The attorney consultation is intended to help youth understand their right to remain silent and their right to have an attorney present and the significance of these rights before they waive them. Revisions also clarify that in an interview regarding child abuse or neglect, the Department of Children, Youth, and Families (DCYF) has the duty to determine whether a student wishes to have a third-party present. Also addressed is required disclosure of student records to DCYF or law enforcement for an investigation or family assessment of alleged abuse or neglect of a student, and the records are relevant to the alleged abuse or neglect.
