## Signing Into a Google Form

On either the Microsoft Edge or Google Chrome web browser window, **hover over or click** the account icon in the upper right corner of the browser window.

The account needs to be signed in with your district ID number@apps.everettsd.org (**#####@apps.everettsd.org** for example).

If this is logged into a different account, then **Sign Out** and log back in with your district ID number@apps.everettsd.org (**#####@apps.everettsd.org**).

On the following screen, sign-in only with your **district ID number** and **password**. If you are signing in from a non-district device, you will have an additional option to choose whether you wish to stay signed in.
