

Procedure 2410P, High School Graduation Requirements

Revisions are requested by Cathy Woods to comply with the Graduation Requirement Emergency Waiver (GREW). The State Board of Education (SBE) adopted permanent rules in July 2021 for an emergency waiver program. These rules apply to students graduating in the Classes of 2020 and beyond, during the 2020-2021 and 2021-2022 school years. Under the emergency waiver program, districts may still apply to the SBE for authority to waive certain state graduation requirements for individual students in the class of 2022 due to disruptions in the students' education as a result of the COVID-19 pandemic.
