

INSTRUCTION

Special Education and Related Services for Eligible Students

The purpose of the district's special education program procedures is to address program areas where state and federal regulations require specific local procedures or permit local discretionary choices.

The state regulations governing implementation of special education services pursuant to the Individuals with Disabilities Education Improvement Act (IDEA) of 2004 are addressed in [Chapter 392-172A WAC](#). These procedures do not address all of the requirements established in the regulations. District personnel who are not familiar with the regulations need to contact the special education department director if there are questions regarding special education. These procedures describe how the district implements its special education program.

Free Appropriate Public Education (FAPE)

The district will apply annually for Federal Part B and state special education funding to assist in the provision of special education and any necessary related services. This funding is in addition to students' basic education funding and state special education funding. **The funding will be applied for by the special education director contracted during the month of June.**

The superintendent or designee, in consultation with building staff, shall annually determine whether to use Early Intervening Services (EIS) funding for students who have not been identified as needing special education or related services, but who need additional academic and behavioral support to succeed in a general education environment. **EIS may also be required by the Office of Superintendent of Public Instruction (OSPI) determination level and the special education director will work to appropriately communicate the required of 15% of the budget.**

The district will annually report to **the Office of Superintendent of Public Instruction (OSPI)** the number of students receiving EIS; and the number of students who received EIS and subsequently received special education and related services under Part B of IDEA during the preceding two-year period.

Services to eligible special education students, ages three (3) to twenty-one (21), will be provided without charge to the student. This does not include incidental fees that are normally charged to all students. Special education services will include preschool, elementary and secondary education and will be provided in conformance with the student's Individualized Education Plan (IEP).

The district provides a continuum of services for students, regardless of the funding source. Where the district is unable to provide all or part of the special education or necessary related services, it will make arrangements through contracts with other public or non-public sources, inter-district agreements or interagency coordination.

Students Covered by Public or Private Insurance

The district may use Medicaid or other public insurance benefits programs in which a student participates to provide or pay for services required to provide FAPE, as permitted by the public insurance program. However, the district will not:

- A. Require parents to sign up for or enroll in public benefits or insurance programs in order for their student to receive FAPE under Part B of the IDEA;
- B. Require parents to incur an out-of-pocket expense such as the payment of a deductible or co-pay amount incurred in filing a claim;
- C. Use a parent or student's benefits under a public insurance program if that use would:
 - 1. Decrease available lifetime coverage or any other insured benefit;
 - 2. Result in the family paying for services required after school hours that would otherwise be covered by the public insurance program;
 - 3. Increase premiums or result in discontinuation of insurance; or
 - 4. Risk loss of eligibility for home and community-based waivers, based on aggregate health-related expenditures.

The district may access a parent's private insurance proceeds to provide FAPE to an eligible student only if the parent provides informed consent. Whenever the district proposes to access the parent's private insurance proceeds, the district will:

- A. Obtain parent consent in accordance with [Chapter 392-172A WAC](#) each time the district wishes to access benefits for a new procedure; and
- B. Inform the parents that their refusal to permit the district to access their insurance does not relieve the district of its responsibility to ensure that all required services are provided at no cost to the parents.

Before first accessing a parent's or student's public benefits, for the first time and annually after the first notification, the district will provide written notification using the prior written notice provisions under [WAC 392-172A-05010](#) (3) that includes:

- A. A statement of the parental consent provisions;
- B. A statement of the "no cost" provisions;
- C. A statement that the parents may withdraw their consent to disclose personally identifiable information to the agency responsible for administering the state's public benefits or insurance; and
- D. A statement that a parent's withdrawal or refusal to consent does not relieve the district of its responsibility to ensure that all required services are provided at no cost to the parents.

After providing the required notification, the district will obtain written informed consent from the parent allowing the district to disclose information from the student's educational records to the agency responsible for administering the state's public benefits or insurance programs. The consent will specify:

1. The personally identifiable information that may be disclosed, such as records or information about the services that may be provided to the student;
2. The purpose of the disclosure;
3. The agency to which the disclosure will be made; and
4. That the parent understands and agrees that the public agency may access the parent's or student's public benefits or insurance to pay for services under the act.

To avoid financial costs to a parent who would otherwise consent to use private insurance, or public benefits if the parent would incur a cost such as a deductible or co-pay, the district may use its Part B funds to pay the cost the parents would incur.

The case manager is responsible for providing the required notices and requests for consent to parents under this section.

Parent Participation and Meetings

The district encourages parental involvement and sharing of information between district and parents to support the provision of appropriate services to its students. As used in these procedures, the term "parent" includes biological and adoptive parents, legal guardians, persons acting in the place of a parent, such as relatives and stepparents, foster parents, persons appointed as surrogate parents, and adult students.

Unless precluded by court order, parents (and as appropriate, students) will be provided the opportunity to participate in any meetings with respect to the identification, evaluation, educational placement, and provision of FAPE, including IEP team meetings, school discipline, and truancy meetings. Meetings will be scheduled at a mutually agreeable time and place.

When such a meeting is scheduled, parents will be:

- A. Notified of the meeting early enough that they will have an opportunity to attend;
- B. Notified of the availability of interpretation and translation services at no cost to the parents;
- C. Notified of the purpose, time, and location of the meeting and who will be in attendance; and
- D. Notified that the district or the parent may invite others who have knowledge or special expertise of the student.

The district shall take whatever action is necessary to ensure that the parent understands the proceedings of the IEP team meeting, including but not limited to, arranging for an interpreter for parents who are deaf or hard of hearing or whose primary language is other than English. The district will maintain documentation of the language in which families prefer to communicate and whether a qualified interpreter for the student's family was provided.

The evaluation group and IEP team members will be responsible for inviting the parents to meetings and will keep documentation of the information provided and the methods used to notify the parents of the meeting.

The district must document all attempts to arrange meetings. This documentation will include records of telephone calls and the results, copies of correspondence sent to the parent and/or other means used to contact the parent.

This documentation will be kept in the student's special education file.

If a parent cannot attend the IEP meeting, the district will arrange for other means to participate. This can include individual or conference phone calls, video, or other means of conferencing.

A meeting does not include informal or unscheduled conversations involving district personnel; conversations on issues such as teaching methodology, lesson plans, coordination of service provisions; or preparatory activities that district personnel engage in to develop a proposal or a response to a parent proposal to be discussed at a later meeting.

Identification and Referral (Child Find)

A. Identification

The purpose of Child Find is to locate, identify and evaluate children, with suspected disabilities ages birth through twenty-one (21) in need of special education and related services. Activities are to reach:

1. Children residing in the district boundaries including preschool-aged children;
2. Children attending approved, nonprofit private elementary and secondary schools located within the district boundaries;
3. Highly mobile children (such as children experiencing homelessness, in foster care, and living in migrant conditions);
4. Children who have a disability and may need special education services;
5. Children at home or home-schooled; and
6. Children who are wards of the state.

The district will consult with parents and representatives of private school students to ensure its Child Find activities are comparable in approved, nonprofit private schools located within district boundaries. These consultations will occur annually through invitation by phone calls, email, and/or letters to a consultation meeting.

The district reaches students who may be eligible for special education services through:

1. Information regarding Child Find on the district's [website](#);
2. Notification to private schools located in the district's boundaries;

3. Posting notices regarding screening and referral in school buildings and public locations including the Department of Social and Health Services (DSHS) community service offices, Employment Security offices, physicians' offices, grocery stores, day cares, community preschool sites and other community organizations;
4. Notifying and coordinating with the designated Part C lead agencies;
5. Early childhood screenings conducted by the district;
6. Coordination with other public and private agencies and practitioners;
7. Written information provided to district staff on referral procedures;
8. Training teachers and administrators on referral/evaluation/identification procedures; and
9. Review of student behavior, discipline and absentee information and information gathered from district-wide assessment activities.

When district staff have concerns that a student may have a suspected disability which could result in eligibility for special education services, they will notify the building multi-disciplinary team (MDT) or special education evaluation team lead which is typically, the school psychologist.

The district's special education department conducts early childhood screenings for ages three (3) to five (5). When parents or others inquire about screenings, the caller will be referred to the Child Find Office.

The screening process involves the following:

1. Parents are asked to provide information to assist in review of their child; and
2. Children are screened in the areas of cognitive, communication, physical, social-emotional, and adaptive development.

Parents are notified at the screening of the results and the parents will also be provided written notice of the results within ten (10) days of the screening. If the screening supports evaluation, obtain written consent for evaluation at the exit interview, if possible, or include consent forms with the written notice notifying the parents of the results. If the screening results indicate that the child does not need an evaluation, written notice shall be sent to the parents within ten (10) days of the screening explaining the basis for the district's decision not to evaluate. Evaluation will occur in accordance with evaluation procedures.

B. Referral

A student, whether or not enrolled in school, may be referred for a special education evaluation by parents, district staff, or other persons knowledgeable about the student. Each building principal will designate a person responsible for ensuring staff understand the referral process and maintain the availability of the district's optional referral form.

Referrals are required to be in writing unless the person referring is unable to write and/or communicate orally. A person who makes a referral orally must be provided with the optional district referral form in the requestor's primary language and offered assistance in completing the referral with the support of a qualified interpreter when needed

When a referral is made, the district must act within a twenty-five (25) school-day timeline to make a decision about whether or not the student will be evaluated for eligibility for special education services.

All certificated employees will document referrals immediately upon a referral being made to or by them. All other staff receiving a referral from another person shall notify the building MDT members. The school-based special education team:

- a. Records the referral;
- b. Provides written notice of the referral to the parent, including the date the request was received; and
- c. Advises MDT staff members to collect and review district data and information provided by the parent to determine whether evaluation is warranted.

During the referral period, the school-based MDT will collect and review existing information from all sources, including parents. Examples may include:

1. Child's history, including developmental milestones;
2. Report cards and progress reports;
3. Individual teacher's or other provider information regarding the child including observations;
4. Assessment data;
5. Medical information, if provided; and
6. Other information that may be relevant to assist in determining whether the child should be evaluated.

If the review of data occurs at a meeting, the parent will be invited. The school-based MDT provides written notice to the parents of the decision regarding evaluation, and whether or not the parents attend the meeting.

After the school-based MDT reviews the request for evaluation and supporting data and does not suspect that the child has a disability, the district may deny the request. In this case written notice, including the reason for the denial and the information used as the basis for the denial, must be given to the parent.

Recommendations regarding evaluation are forwarded to the special education department team at the school.

If the determination is that the child should be evaluated, the reviewers will include information about the recommended areas of evaluation. This information will assist the district in providing parents written notice and will assist the district in selecting appropriate evaluation group members. The MDT is responsible for notifying parents of the results using written prior notice.

When the determination is that the child will be evaluated, parent consent for evaluation and consent for release of appropriate records will be sent with the notice.

The school-based MDT will seek parental consent to conduct the evaluation without any unnecessary delay. The district is not required to obtain consent from the biological parent if:

1. The student is a ward of the state and does not reside with a parent;
2. The parent cannot be located, or their rights have been terminated; or
3. Consent for an evaluation is given by an individual appointed to represent the student.

When the parent provides consent, the school shall select an evaluation group. The evaluation group is to complete the evaluation within thirty-five (35) school days after the district's receipt of parent consent, unless:

1. The parents and district agree in writing to extend the timeline;
2. The parent fails or refuses to make the student available for evaluation; or
3. The student enrolls in another school district after the evaluation is begun but before completion and the parent and new district have an agreement for completion of the evaluation.

If a parent does not provide written, informed consent for the evaluation, notify the special services office. District staff will make a determination as to whether it wishes to use mediation to seek agreement to evaluate or file a due process hearing to override the parent's refusal to consent. The district may not override a parent's refusal to consent for an evaluation if the student is homeschooled or is unilaterally placed in a private school. If the parent does not provide written informed consent and the district does not use mediation or due process, the case manager will provide the parent with prior written notice informing the parent that the district cannot proceed with the evaluation to determine eligibility and is not responsible for providing special education and related services without an initial evaluation to determine eligibility.

Evaluation and Reevaluation

A. Evaluation of Students moving from Part C to Part B and Participation in Early Transition Planning Conferences

The district will participate in transition planning conferences, arranged by the local lead agency as designee of the Part C lead agency for each student who may be potentially eligible for Part B special education and related services. Transition plans will be designed to promote uninterrupted provision of appropriate services to eligible students.

1. The Early Childhood Assessment Team lead will serve as the point of contact with the family resource coordinator for timely execution of transition planning conferences that are arranged at least ninety (90) days before the student's third (3rd) birthday by the designee of the Part C agency;
2. Within twenty-five (25) school days following the transition planning conference, a determination whether or not to evaluate the student for Part B services will be made; and
3. The district will follow the procedures for obtaining consent and conducting an initial evaluation, and provide prior written notice of the decision, if it determines that the student will be evaluated to determine eligibility for Part B services.

The district will follow the procedures for timelines and evaluation requirements for students moving from Part C to Part B. However, students turning three (3), who were previously determined eligible for early intervention services under Part C of IDEA, will be evaluated for initial eligibility for special education services under Part B of IDEA. The evaluation must be completed in enough time to develop an initial IEP by the date of the student's third (3rd) birthday.

B. Evaluation Requirements

The purpose of evaluation is to collect information about a student's functional, developmental, and academic skills and achievements from a variety of sources, to determine whether a student qualifies for special education and related services, and to develop an IEP. This includes information provided by the parent. All information gathered in this process is reviewed by the school-based MDT.

The evaluation must be an individual assessment designed to determine:

1. Whether the student has a disability that adversely affects educational performance;
2. Whether the student requires specially designed instruction and any necessary related services; and
3. The nature and extent of special education and related services needed by the student, including information related to enabling the child to be involved in and progress in the general education curriculum.

The MDT will select the members of the evaluation group. Members selected must be knowledgeable about the student and the areas of suspected disabilities. Qualifications of a team member include having the appropriate professional license or certification and may include outside practitioners when necessary. When assessing for specific learning disabilities, the parent and a group of qualified professionals must be part of the team. If the student requires a medical evaluation in order to determine eligibility, the district will coordinate with the parents to arrange for the evaluation at district expense or through the use of public or private insurance if the parent consents to allow the district to use the insurance. The evaluation must be completed within thirty-five (35) school days after parent consent has been received.

There are many legal requirements for conducting evaluations. Evaluation procedures or materials must be free of racial, cultural, or sexual/gender bias and they must be used for the purpose for which they are valid and reliable. Tests must be appropriate for the student's age and stage of developmental level. Tests should be administered in the primary language of the student or conducted in the mode of communication most familiar to the student. If it appears to be clearly not feasible to conduct a procedure or test in the mode of communication most frequently used by the student, the evaluation team will contact the special education administrator to develop an individualized strategy for valid evaluation of the student's skills. The inclusion of parents in this collaboration is desirable and strongly encouraged.

The evaluation team must use a variety of methods, tools, and strategies designed to gather relevant functional and developmental information. The evaluation does not rely on one source or procedure as the sole criterion for determination and should include:

1. Review of existing data;
2. Relevant functional and developmental information;
3. Information from parents;
4. Information from other providers;
5. Information related to enabling access to and progress within the general education curriculum and assisting in determining whether there is a disability and the content of the IEP;
6. Current classroom-based evaluations, using criterion-referenced and curriculum-based methods, anecdotal records, and observations;
7. Teacher and related service providers' observations; and
8. Testing and other evaluation materials, which may include medical or other evaluations when necessary.

All current evaluation data, as well as data previously reviewed by the evaluation team must be considered. Professional members of the evaluation team need to be familiar with qualifying disability definitions and criteria in federal and state rules.

This review of existing data may be in the form of a meeting of IEP team members or may be conducted without a meeting. It includes data provided by parents, data gathered in the general education classroom, or data from state and district level assessments. The data may provide information about the student's physical condition, social or cultural background and adaptive behavior.

When additional assessments are necessary, the team members have the responsibility of selecting, administering, interpreting, and making judgments about evaluation methods and results, and ensuring that the tests and assessments are administered by qualified personnel in accordance with the instructions of the test producer. The gathering of additional data in combination with existing data must be sufficiently comprehensive to address all areas of the suspected disability and any special education needs, whether linked to the disability category or not. If the evaluation team determines that no additional data are needed, the evaluation team will notify the student's parent of that determination and the reasons for it and inform them of their right to request additional assessments. The district will complete the evaluation using existing data.

Parents and district staff are encouraged to work towards consensus, but the district has the ultimate responsibility to determine whether the student has a disability or not. The building evaluation team will provide the parent with prior written notice of the eligibility decision, as well as a copy of the evaluation report. If the parent disagrees with the eligibility decision, they will be informed of their dispute resolution options described in the procedural safeguards.

C. Specific Learning Disability (SLD)

The district continues to use the severe discrepancy approach for identifying students with a SLD.

Student response is only one element of determining whether a child has a specific learning disability. The evaluation will be comprehensive and address all areas of suspected disability and will also include whether the child performs adequately to meet the grade-level standards in the general curriculum. The evaluation will also include whether failure to make progress is or is not the result of:

1. A physical, mental, emotional, cultural, or environmental factor or limited English proficiency; or
2. Inadequate instruction in reading or mathematics.

D. Evaluation of Transfer Students

If a student transfers into the district while an evaluation process is pending from the other district, the school psychologist is responsible for determining the status of evaluations conducted to date and making a determination as to whether the evaluation can be completed within the thirty-five (35) school day timeline from the date the parent provided consent. If the determination is that additional time will be needed, the school psychologist will notify the parent and obtain the parent's agreement to establish a new timeline.

E. Eligibility

The evaluation team and the parent will determine whether or not the student is a special education student:

1. A student is not eligible if the determinant factor is lack of appropriate instruction in reading or math, based upon the state's grade level expectations or limited English proficiency; and
2. Eligibility may be determined by documented professional judgment when:
 - a. Properly validated tests are unavailable; or
 - b. Corroborating evidence indicates that results were influenced due to measuring a disability.

The parent will be provided with a copy of the evaluation report and the documentation of determination of eligibility.

Parents will also be provided with prior written notice of the eligibility decision within ten (10) school days of the decision. The evaluation case manager is responsible for sending the notice.

Students remain eligible for special education services until one (1) of four (4) events occur:

1. The student is determined through a reevaluation to no longer be eligible for special education;
2. The student has met the district's high school graduation requirements;

3. The student has reached age twenty-one (21). A special education student whose twenty-first birthday occurs after August 31, will continue to be eligible for special education and any necessary related services for the remainder of the school year; or
4. The student no longer receives special education services based upon a parent's written revocation of services.

When a special education student is expected to graduate prior to age twenty-one (21), or when graduation is part of the transition plan, the IEP team will document a student's progress towards achieving course credits towards graduation on the transition portion of the IEP. The district will provide prior written notice to parents and adult students that the student is expected to graduate and will no longer be eligible for special education services. The district will also provide the parents and student with a summary of academic achievement and functional performance and recommendations to assist the student with postsecondary goals.

F. Evaluation Report

Each person conducting an assessment of the student will specify the procedures and instruments used and their results and the significance of findings related to the student's instructional program, including a specification of the factors interfering with performance and the special education and related services needed.

The evaluation group will determine who is most appropriate to develop the evaluation report reflecting the evaluation information. This will be completed before the conclusion of the evaluation period and will, at a minimum:

1. Identify the disability that requires special education and related services if a disability exists;
2. Discuss assessments and review data supporting conclusions regarding eligibility;
3. Include the additional information required for the specific learning disability eligibility category;
4. Describe how the disability or disabilities affect the student's involvement and progress in the general curriculum;
5. Make recommendations to the IEP team with respect to special education and related services needed, materials or equipment, instructional and curricular practices, student management strategies, the need for extended school year services beyond one hundred eighty (180) school days, and location of services;
6. Include other information, as determined through the evaluation process and parent input;

7. Include the additional information required for the specific learning disability eligibility category:

87. Provide any necessary professional judgments and the facts or reasons in support of the judgments; **and**

98. Be signed and dated by the evaluation team members certifying their agreement. Any team member who disagrees with the conclusions of the report shall prepare a separate statement representing their own conclusion; **and**

109. The evaluation case manager is responsible for notifying parents of the purpose, date, time, and location of evaluation meetings.

G. Reevaluations

A reevaluation of a student receiving special education or related services is conducted if academic achievement and functional performance has improved to warrant a reevaluation if the IEP team suspects that the student may no longer be a student with a disability or if the child's parent or teacher requests a reevaluation. A reevaluation does not occur more than once per year unless parent and school agree otherwise. A reevaluation must occur at least once every three (3) years using the evaluation procedures.

Students who turn six (6) who met the eligibility requirements for the disability category of "Developmentally Delayed" (DD), under the criteria for ages three (3) to six (6) years need not be reevaluated at age six (6) under the criteria for six (6) to nine (9) years until three (3) years after their initial evaluation was completed.

Students who were previously eligible under the category DD must be reevaluated before age ten (10) to determine eligibility within another category.

The reevaluation process must be completed within thirty-five (35) school days after the parent's consent.

As part of any reevaluation, the IEP team members, and other professionals the district determines appropriate will review existing data that includes:

1. Evaluations and information provided by the parents;
2. Current classroom-based assessment, local or state assessments and classroom-based observations; and
3. Observations by other teachers and related services providers data.

Based on this review the team will determine whether any additional data is necessary to determine:

1. Whether the student continues to be eligible for special education and any necessary related services;
2. The present levels of performance and educational needs; and
3. Whether any additions or modifications to the student's program are needed. This review can occur with or without a meeting or through individual review. If the IEP team members and any other persons reviewing the data determine that no further testing is necessary, the team will notify the parents of this determination, using written prior notice and will inform parents that they have the right to request assessments if they disagree with the determination that additional testing is not necessary. Parent consent is not required if the reevaluation does not require additional testing.

4. If additional testing is needed:
 - a. The school psychologist will request an assessment planning meeting to obtain written parental consent for reevaluation and provide prior written notice identifying the areas of assessment;
 - b. If the parents do not agree to meet and return the signed consent form, the team will send another letter explaining the need for reevaluation and parent consent and will enclose the consent form and a copy of the prior written notice. In addition, the district will document its reasonable attempts to obtain consent such as telephone calls, emails, personal contact, and other efforts to obtain consent;
 - c. If the parents do not respond to the request for consent, and the district has documented its reasonable attempts to obtain consent, the district can proceed with the reevaluation; and
 - d. If the parents refuse to consent to the reevaluation, the evaluation team may conduct a file review.

After the reevaluation is completed, the evaluation case manager will invite parents to the eligibility meeting and will provide prior written notice after the meeting of the results of the reevaluation to parents in their primary language, indicating one (1) or more of the following:

1. Whether the student continues to be eligible and in need of special education;
2. Present levels of performance and educational needs of the student; and
3. Whether any additions or modifications to the special education and related services are needed to enable the student to meet IEP annual goals and to participate, as appropriate, in the general curriculum.

This notice will occur within five (5) school days of the eligibility decision. The evaluation case manager is responsible for sending the notice.

H. Reevaluation and Graduation

No reevaluation is required when special education eligibility terminates due to graduation from high school with a regular diploma or due to reaching the end of the school year during which the student turned twenty-one (21). Instead, the district will provide prior written notice to the student and the parent one (1) month before the student's anticipated last day of school and the IEP team will provide the student with a summary of academic achievement and functional performance including recommendations on how to assist the student in meeting post-secondary goals. This summary will be provided to the student at the time of the final year's IEP meeting. Special services is responsible for assuring that the IEP team completes the summary of academic achievement and functional performance.

Independent Educational Evaluations (IEE)

When a parent requests an IEE, the district must decide within fifteen (15) calendar days whether or not it agrees to provide it. Any parent request for an independent evaluation should be immediately referred to the district special services department. The special education administrator will review the request and determine whether or not the request is warranted. If the district agrees to provide an IEE, arrangements will be made promptly. If the district denies the request to pay for an IEE, it must file for a due process hearing within fifteen (15) calendar days of the parent's request. The district may request mediation as an option after filing the due process hearing. If the parents withdraw their request for an IEE the due process hearing can be dismissed.

When a parent requests an IEE, the district must provide parents a list of district criteria and evaluators. If the district initiates a hearing and a decision is made that the district's evaluation is appropriate, the parent still has the right to an IEE but not at public expense.

If the parent obtains an IEE at either public or private expense, any results of the IEE must be considered by the district if providing FAPE. The IEE may also be presented as evidence at a hearing regarding the student.

The following criteria are established for the selection of an individual to conduct an IEE at public expense. These criteria are established in order to identify the knowledge, experience and qualifications of individuals selected to conduct the evaluations. Any individual selected to conduct either a district evaluation or an IEE must be:

1. Licensed, credentialed or otherwise qualified within the state of Washington or state of residence/practice to perform an evaluation in the specific professional discipline for which an independent evaluation is sought;
2. Knowledgeable and experienced in evaluating children with similar disabilities;
3. Geographically located within the state of Washington; and
4. Available to the district at a maximum fee which does not exceed by more than 25 percent the prevailing average for similar evaluations within the state of Washington.

Exceptions to the criteria will be granted only when it can be shown that the unique circumstances of the child or the disability:

1. Make it impossible to identify anyone within the state of Washington who holds the appropriate credentials or experience necessary to conduct the evaluation; or
2. Require a specialized evaluator whose fee exceeds the prevailing average by more than 25 percent; or
3. Include factors that would warrant an exception in order to obtain an appropriate evaluation.

Individualized Educational Programs (IEP)

A. IEP Development

The term IEP means a written statement for each student eligible for special education that is developed, reviewed, and revised in accordance with [WAC 392-172A-03095](#) and [WAC 392-172A-03100](#).

An IEP must be in effect before initiation of special education services. The IEP must be developed within thirty (30) calendar days after the student's initial determination of eligibility for special services. IEPs must be updated annually or revised more frequently if needed to adjust the program and services.

Parent consent is required before the initial provision of special education services. If a parent refuses to provide consent to the provision of special education services, the district may not use mediation or due process to override a parent's refusal. When a parent refuses to provide consent, the IEP case manager will notify the parent that the district does not have FAPE obligation to the student. The notification will be documented in the student's file.

The district will maintain a copy of the current IEP in the location(s) serving the special education student. The IEP is to be accessible to all staff members responsible for providing education, other services, or implementation of the IEP. All staff members will be informed of their responsibilities for its implementation. This includes not only teachers and other service providers, but also bus drivers, playground and lunchroom supervisors, nursing staff and others who may be responsible for the proper implementation. The building principal is responsible for ensuring that staff members are knowledgeable about their responsibilities.

IEPs will be implemented without undue delay following IEP meetings, regardless of the payment source for special education and or related services.

Parents are members of the IEP team and shall have the opportunity to participate fully. The district will make sure that the parents understand the proceedings including arranging for an interpreter for parents who are deaf or whose primary language is other than English. The district will also ensure that meeting locations are accessible. The special education staff at each building is responsible for coordinating interpreters and making arrangements for the meeting location.

The district will provide parents/guardians with a copy of district [Policy 3319](#), Use of Physical Restraint and Isolation with Students.

B. IEP Team

The IEP team includes:

1. The parent(s) of the student;
2. Not less than one (1) general education teacher (or preschool teacher) of the student if the student is, or will be, participating in the general education environment. The general education teacher will, to the extent appropriate, participate in development of the student's IEP, including determinations of: 1) appropriate positive behavioral interventions and supports for the student; and 2) supplementary aids and services, program modifications, and support for school personnel consistent with [WAC 392-172A-01185](#) and [WAC 392-172A-03110\(2\)\(b\)](#);
3. Not less than one (1) special education teacher, or if appropriate, not less than one (1) special education provider of the student;
4. A representative of the district, who is qualified to provide or supervise the provision of special education and related services, is knowledgeable about general education curriculum, and is knowledgeable about the availability of district resources;
5. An individual who can interpret the instructional implications of the evaluation results;
6. Any other individuals who have knowledge or special expertise about the student. These individuals may be invited by both the district and the parents, at the discretion of the person making the invitation;
7. The student, when appropriate, or when required;
8. Students must be invited when the purpose of the meeting includes discussion of transition needs or services;

9. If another agency is or may be responsible for payment or provision of transition services, an agency representative will be invited, with the parent's consent. If the agency representative cannot attend the meeting, district personnel will keep the representative informed of the meeting and obtain agency information that will assist in the service provision; and
10. Parents will be notified of the participation of the Part C service coordinator or other designated representatives of the Part C system as specified by the state lead educational agency for Part C at the initial IEP meeting for a child previously served under Part C of IDEA.

The parents and district must agree in writing before any of the above team members are excused from all or part of a meeting. If a team member's area of the IEP is being discussed or modified, then the parent and district must consent to their excusal, and that specific team member must provide advance written input for their part of the IEP prior to the meeting. Administrators may not be excused from IEP meetings, but they can assign an administrative designee if they cannot attend.

Existing team members may fill more than one of these roles if they meet the criteria for the role; however, they can only sign for one role.

Sometimes parents do not attend IEP meetings. There will also be times the parents do not agree with the IEP as proposed, and despite attempts to reach agreement on IEP content, the team does not reach agreement. If a parent attends the IEP meeting and agreement is not reached on the IEP, the team will determine whether another IEP meeting should be scheduled as soon as mutually possible, or whether there is enough information to complete the IEP. When the decision is made that the IEP will be implemented the district must send prior written notice of the decisions reached to the parent, including the date the IEP will be implemented.

When the parents do not attend the IEP meeting, despite the district's efforts to ensure participation, or if the team does not reach agreement, it is the district's obligation to offer an appropriate educational program:

1. Have IEP members present sign the IEP (or document participation if any member is unwilling to sign). The signature represents attendance at the meeting;
2. Send a copy to the parent and provide the parent prior written notice that the district intends to implement the IEP; and
3. Forward the documentation of actual or attempted contacts to the special education department for processing when parents do not attend the meeting.

When making changes to an IEP after the annual IEP meeting for a school year, the parent and the district may agree not to convene an IEP meeting for the purpose of making changes. The parent and the district must complete and sign a written document indicating the changes and inform IEP team members and appropriate individuals of the changes. The special education case manager will be responsible for IEP amendments.

C. IEP Preparation and Content

IEP teams will consider the recommendations in the initial or most recent evaluation to develop the IEP. In developing each IEP, the team must consider:

1. The strengths of the student including the academic, developmental, and functional needs of the student and the concerns of the parents for enhancing the education of their child;
2. Whether positive behavior interventions and supports, including a behavioral intervention plan (BIP), as defined by [WAC 392-172A-01031](#), are needed to address the student's behavior;
3. The language needs of the student as those needs relate to the student's IEP, for a student with limited English proficiency;
4. Whether Braille instruction is appropriate for a student who is blind or visually impaired;
5. The communication needs of the student (and in the case of a student who is deaf or hard of hearing, consider the student's language and communication needs), opportunities for direct communications with peers and professional personnel in the student's language and communication mode; academic level; and full range of needs, including opportunity for direct instruction in the student's language and communication mode; and
6. Whether assistive technology devices or services are needed.

IEP content must include:

1. The student's present levels of academic and functional performance with a description of how the disability(ies) affect the student's involvement and progress in the general curriculum or preschool activities;
2. Measurable academic and functional annual goals for the student (including benchmarks or short-term objectives if the student is participating in alternative assessments) that will meet the student's needs resulting from the disability(ies) to enable involvement and progress in the general curriculum or in preschool activities, and will meet the student's other educational needs;
3. A statement of special education services, any necessary related services, and supplementary aids and services based on peer-reviewed research to the extent practicable to be provided to the student and program modifications or supports for personnel so that the student may advance towards annual goals, progress in the general curriculum and be educated and participate with other special education students and non-disabled students and participate in extracurricular and other nonacademic activities;
4. A statement of the extent, if any, that the student will not participate with nondisabled students in general classroom, extracurricular and nonacademic activities;

5. A statement of any individual appropriate accommodations in the administration of state or district-wide assessments of student achievement that are needed to measure academic achievement and functional performance of the student on state assessments. If the team determines that the student will not participate in a particular assessment, the IEP will address why that student cannot participate in the regular assessment(s), why the particular alternative assessment is appropriate for the student, and document: (a) that the parents were informed that their student's academic achievement will be measured on alternate standards, and (b) how participation in an alternate assessment may delay or otherwise affect the student from completing the requirements for a regular high school diploma;
6. The date for the beginning of services and the anticipated frequency, location and duration of services and modifications;
7. A statement of how the student's progress towards goals will be measured, how the student's parents will be regularly informed of their child's progress towards the annual goals and whether the progress is sufficient to enable the student to achieve the goal by the end of the year. Measurement of the student's progress will be based on the data collected as designated on the IEP. The individual responsible for implementing the goal is responsible for maintaining the data used to measure progress. Information to the parents will be provided at the same time the district issues progress reports or report cards, or other agreed times as identified in the IEP;
8. The projected beginning date for the special education and related services;
9. With an IEP that is in effect when the student turns sixteen (16), a statement of needed transition services and any interagency responsibilities or needed linkages. The transition component must include appropriate measurable post-secondary goals based on age-appropriate transition and assessments related to training, education, employment, and independent living skills where appropriate, the transition services (including courses of study) needed to assist the child in reaching those goals, and a description of how the postsecondary goals and transition services align with the high school and beyond plan (HSBP);
10. If the parent/guardian and IEP team determine that the student requires advanced educational planning to receive FAPE, they may develop emergency response protocols in accordance with [WAC 392-172A-02105](#);
11. A BIP, if determined necessary by the IEP team for a student to receive FAPE. The BIP must meet the requirements stated in [WAC 392-172A-01142](#);
12. The procedures by which parents/guardians will be notified of the use of isolation or restraint or a restraint device on their student (see [Procedure 3319P](#));
13. A statement regarding transfer of rights at the age of majority. The special education IEP case manager will provide written notice to the student one (1) year prior to student turning eighteen (18) years of age; and
14. Extended school year (ESY) services. The consideration for ESY services is a team decision, based on information provided in the evaluation report and based on the individual needs of a student. ESY services are not limited by categories of disability or limited by type amount or duration of the services. If the need for ESY services is not addressed in the IEP and ESY services may be appropriate for the student, the IEP team will meet by May 1 to address the need for ESY.

Factors for the team to consider when determining the need for ESY may include, but are not limited to:

1. Evidence of regression or recoupment time based on documented evidence; or
2. A documented determination based on the professional judgment of the IEP team including consideration of the nature and severity of the student's disability, the rate of progress and emerging skills.

Transfer Students

Students who transfer from one district to another within the state continue to be eligible for special education and any necessary related services. When an eligible student transfers into the district, the building principal or designee will notify the building school psychologist. The building special education staff and principal in consultation with parents will review the student's IEP to ensure the district provides services comparable to those in the previous IEP or develops, adopts, and implements a new IEP.

When a student who was identified as eligible for special education transfers from out of state into the district, the building principal or designee will notify the school psychologist as soon as possible. The IEP team will review the evaluation, eligibility documentation and IEP to determine whether or not the student meets state eligibility criteria. If the student meets the state eligibility criteria, the district will follow the procedures described in the previous paragraph to provide comparable services until the district develops an IEP for the student.

If the student needs to be evaluated to determine eligibility in this state, the school psychologist will notify the parents, obtain consent, and evaluate the student for eligibility within thirty-five (35) school days of the receipt of the parent's consent. The district, in consultation with the parents, will continue to provide special education services comparable to the services on the student's IEP, pending the results of the initial evaluation.

The school psychologist must take reasonable steps to promptly obtain records, including IEP supporting documents and any other records related to special education or related services from the previous school.

Placement

No student may receive special education and related services without being determined eligible for services, and thus the evaluation process and IEP development precedes the determination of the special education placement. When a student has been evaluated and the evaluation team and parent have determined student eligibility and the need for special education and related services, programming decisions must occur. These decisions are made on the basis of information generated through the evaluation and IEP processes. The actual program is considered within the context of least restrictive environment (LRE) and the continuum of placement alternatives (reviewed below). When determining initial eligibility for special education, including determination of the appropriate placement, the parent or adult student must provide written consent to services before the student receives special education services.

If the parents do not consent to the provision of special education and related services, the district will not provide special education services to the student. The district will notify the parents that the student is eligible for services and that the district is willing to provide the services when the parent provides written consent. The notification will also inform the parents that the district has no FAPE obligation to the student when parents refuse to provide consent.

When program decisions are addressed by the IEP team, proper consideration must be given to the LRE. Within the educational setting, the student should be placed, whenever possible:

1. In the school the eligible student would normally attend; and
2. With non-disabled students in the general educational setting, to the maximum extent possible.

Special classes, separate schools, or removal of students with disabilities from the general education environment occurs only when the nature or severity of the disability is such that education in the general education classroom with use of supplementary aids and services cannot be satisfactorily achieved.

If the IEP team believes that the student will not be successful within the general education classroom, the team will consider:

1. The educational benefits of full-time placement in a regular classroom;
2. The non-academic benefits of such a placement; **and**
3. The effect the student will have on the teacher and other students in the regular classroom; **and**

4. The costs of placing the student in the regular classroom.

The degree to which the student is to be integrated into the general classroom setting is dependent upon the identified needs of the student. This placement is to occur unless the nature of the needs is so severe that this cannot be satisfactorily achieved, even with supplementary aids and services. If the placement is in another building, the appropriate educational placement will be as close to the student's home as reasonably possible.

Within the nonacademic setting, students will be provided nonacademic and extracurricular activities with nondisabled students. The activities include, but are not limited to counseling services, athletics, transportation, health services, and recreational activities, clubs, etc. Limits on nonparticipation or conditions of participation must be designated in the IEP.

The district will also make opportunities available for students eligible for special education to participate with nondisabled students in the district's art, music, industrial arts, computer, consumer classes, and home and family classes.

There is a continuum of educational placement options available within the district including accommodations within the general education classes or regular early childhood program, resource room support, extended resource room, life skills classes, achieve classes (social emotional support), pre-school, homebound, out-of-district provisions, and adult transition programs (age 18-21). Academic support is available at each building, as is the provision of services for speech/language disabilities and motor disabilities. These options are intended to address the individual needs of students, including preschool students with disabilities, and they are considered according to the following process.

The placement of each student with a disability will be determined annually, or sooner if appropriate, by the IEP team. The appropriateness of placement options will be based upon various decisions, including:

1. Data-based judgments in IEP development;
2. Judgments (data-based) in determining LRE;
3. The reasonable probability of the placement option(s) assisting the student to attain annual goals and objectives and the quality of services needed; and
4. The consideration of potentially harmful effects upon the student or on the quality of services needed.

Placement options along the continuum must include alternative placement options identified in the definition of special education and make provisions for supplementary services such as resource room or itinerant instruction to be provided in concert with the general education placement.

Students Unilaterally Enrolled in Private Non-Profit Schools by Parents

On December 1 of each year, the district shall conduct an annual count of the number of private elementary and secondary school students eligible for special education who are unilaterally enrolled by their parents in a private school located within district boundaries.

The district special education administration will have timely and meaningful consultation with appropriate representatives of private schools and representatives of parents of private school students and make determinations about who will receive services and what services will be provided. The purpose of the child count is to determine the proportionate amount that the district must spend on providing special education and related services, including transportation, to private elementary or secondary school students in the next fiscal year.

The district is required to spend a proportionate amount of federal special education Part B and Section 619 funds to provide special education and related services to private elementary and secondary school students. In order to determine which students will receive services, what services will be provided, how and where the services will be provided, and how services provided will be evaluated, the district shall consult with appropriate representatives and parents of private school students.

The district will make the final decision with respect to services to be provided to eligible private school students. Special services will notify each approved nonprofit private school operating in the district seeking recommendations of persons to serve as representatives of special education private school students in consultations with the district. All elementary and secondary private school representatives and parent representatives will be invited, through written invitation, to an annual meeting between special education administration and private school representatives in order to establish a work plan and schedule with the private school representatives and representatives of private school parents to discuss how to identify students, the amount of proportionate share, how the proportionate share was calculated, which students will receive services, what services will be provided, how and where services will be provided, and how services will be evaluated.

The special services administrator will be responsible for private school involvement and service-plan development. A private school student has no individual entitlement to any service or amount of service they would have received if enrolled in a public school to receive FAPE. However, for each private school student receiving special education or related services, the district will initiate and conduct meetings to develop, review and revise a services plan describing the special education and related services that the district will provide. The services plan must: (1) meet IEP content requirements as appropriate; and (2) be developed, reviewed, implemented, and revised annually consistent with the requirements for IEP review. The district shall make every effort to include a representative from the private school at each meeting. If the private school representative is not able to attend, the district shall use other methods, including individual or conference telephone calls, to assure the representative's participation.

Private school students may receive a different amount of services than students in public schools who receive special education. However, the special education services provided to eligible private school students will be provided by personnel meeting the same standards as personnel providing the services in the district, except that private elementary school and secondary school teachers who are providing equitable services to parentally placed private school students eligible for special education do not have to meet the highly qualified special education teacher requirements.

Services to students in private schools including private sectarian schools may be provided on-site. District personnel may be made available to private schools only to the extent necessary to provide the services required if those services are not normally provided by the private school. Services shall not include payment of private school teachers' or other employees' salaries, except for services performed outside regular private school hours and under public supervision and control.

Equipment and/or supplies may be placed on private school premises for the period of time necessary for the services plan program, but the district shall retain and exercise title and administrative control of said equipment/supplies. The district shall keep records and make an accounting assuring that said equipment/supplies is/are used solely for the services plan program. Said equipment/supplies shall be removed, if necessary, to avoid its/their use for other purposes or if no longer needed for the services plan program. No district funds shall be used for repairs, minor remodeling, or construction of private school facilities.

The district shall provide services to students in private schools in a manner that: (1) maintains physical and administrative separation between the private and public-school programs; and (2) does not benefit the private school at public expense.

Procedural Safeguards

A. Notice of Procedural Safeguards

In addition to protections provided to parents of eligible students, parents also have procedural safeguard protections when a student's identification, evaluation or placement is at issue. The district shall provide a copy of the procedural safeguards notice to the parents and adult students one (1) time a year and:

1. Upon initial referral or parent request for evaluation;

2. Upon receipt of the parent's first state complaint and first request for due process hearing in a school year;
3. Upon a disciplinary action that will result in a disciplinary change of placement; and
4. Upon request by the parent.

The procedural safeguard notice used by the district includes a full explanation of all the procedural safeguards relating to independent educational evaluation, prior written notice, parental consent, access to educational records, discipline procedures for students who are subject to placement in an interim alternative educational setting, requirements for unilateral placement by parents of children in private schools at public expense, state complaint procedures, mediation, the child's placement during pendency of due process proceedings including requirements for disclosure of evidence, due process hearings, civil actions and attorney's fees. Copies of the district's special education procedural safeguards are available at the district website and paper copies are available at each school and at the special education central administrative offices.

B. Consent

The district will obtain informed, written parental consent before:

1. Conducting an initial evaluation;
2. Providing initial special education and related services to a student; and
3. Conducting a re-evaluation if the re-evaluation includes administration of additional assessments.

Parental consent is not required to review existing data as part of an evaluation or re-evaluation, or to administer a test or other evaluation that is administered to all students unless consent is required of all students' parents.

Informed consent means that the parent or adult student:

1. Has been fully informed of all information that is relevant to the activity for which the district is asking consent, and that the information is provided in the parent or adult student's primary language or other mode of communication;
2. Understands and agrees in writing to the activity for which consent is sought and the consent describes the activity and lists any records which will be released and to whom; and
3. Understands that the granting of consent is voluntary and may be revoked at any time. If consent is revoked, the revocation does not negate an action that has occurred after the consent was given and before the consent was revoked.

The district may not use a parent's refusal to consent to one service or activity to deny the parent or child any other service, benefit, or activity of the district.

If the district is unable to obtain a parent's consent, the district may use mediation procedures to obtain a parent's consent or request a due process hearing asking the administrative law judge to override the parent's refusal to consent to an evaluation or reevaluation. The district may not request a due process hearing to override a parent's refusal to consent to initial special education services. The district may not use mediation or due process procedures to override a parent's refusal to consent to an evaluation or reevaluation if the student is homeschooled or enrolled in a private school.

C. Revocation of Consent

Parents may revoke consent for the continued receipt of special education and related services. If parents revoke consent, the staff member receiving the revocation will forward the revocation to the special education central administrative office.

Upon receipt of the parent's written notice of revocation, the building evaluation or IEP case manager:

1. Will provide prior written notice within a reasonable time before the district stops providing services. The notice will include information about the effect of revocation and will inform the parent of the date the district will stop providing special education and related services.

Discontinuation of special education and related services in response to the parent's written revocation will not be in violation of FAPE and eliminates the district's requirement to convene an IEP meeting or develop an IEP. However, the district does have a continuing Child Find duty, and staff will follow referral procedures if they believe the student should be referred for special education. In addition, parents may request that the district conduct an initial evaluation for eligibility for special education services after they have revoked consent for continued services.

D. Prior Written Notice

Prior written notices are provided to parents when a district makes a decision relating to a student's identification, evaluation, placement, or provision of FAPE. Prior written notices document the decisions made by the IEP teams and evaluation team.

The district will provide prior written notice to the parent and adult student whenever the district proposes or refuses to initiate or change the identification, evaluation, educational placement, or provision of FAPE to the student.

The prior written notice will include the following:

1. A statement that the parents and adult student have procedural safeguard protections and if a copy of the procedural safeguards do not accompany the notice, a statement that describes how a copy of the statement of procedural safeguards may be obtained;
2. A description of the action proposed or refused by the district;
3. An explanation of why the district proposes or refuses to take the action and a description of other options that the district considered and the reasons why the options were rejected;
4. A description of any other factors which are relevant to the district's proposal or refusal;

5. A description of each evaluation procedure, test, record, or report the district used as a basis for the proposal or refusal; and
6. A description of any evaluation procedures the district proposes to conduct and sources for parents to contact for assistance in understanding the procedural safeguards provision of this chapter.

Prior written notice and the notice of procedural safeguards must be provided in the primary language of the parent or other mode of communication used by the parent unless it is clearly not feasible to do so. If the primary language or other mode of communication of the parent is not a written language, the district will take steps to ensure that the notice is translated orally or by other means to the parent. This may involve:

1. Arranging for an interpreter if English is not the primary language of the parent or if the parent has a hearing impairment; or
2. Providing notice orally if the written language is not a primary language.

The special education case manager/designee will document in writing how this information was provided and that the parent understands the content of the notice. The evaluation or IEP case manager is responsible for sending prior written notices after evaluation, eligibility, IEP team and placement decisions.

E. Transfer of Educational Rights to an Adult Student

When a student eligible for special education reaches the age of eighteen (18), all educational rights under Part B of the IDEA, previously exercised by the parent, transfer to the student, unless the student is determined incapacitated in a guardianship proceeding or the district has appointed an educational representative for the student. When the student turns eighteen (18), the district will notify the parent and student that the educational rights have transferred to the student and will send any required notices to both the parent and the adult student. The IEP case manager is responsible for providing the notice.

At the IEP meeting occurring one (1) year before the student turns eighteen (18), the district will inform the parents and the student that educational rights will transfer to the student, and the district will inform the student about those educational rights. This information will be documented on the IEP.

Appointment of an Educational Representative

A student over the age of eighteen (18) is presumed to be capable of making educational decisions and able to provide informed consent unless the student is determined to be “incapacitated” through a legal guardianship proceeding. If a parent, another interested party, or the district believes that a student over the age of eighteen (18) is unable to provide informed consent or to make educational decisions, and the student does not have a legal guardian, the parent or other interested party may ask the district to appoint an educational representative.

This determination will only be made if two (2) separate professionals, as defined by [WAC 392-172A-05135](#)(5)(a), state that they conducted an examination and interviewed the student, and concluded the student is incapable of providing informed consent. The district will inform the student of the decision and appoint either, the spouse, the student's parents, another adult, or a surrogate educational representative to represent the student. The appointment of the educational representative will continue for one (1) year.

The student or other adult may challenge the certification at any time. If a challenge occurs, the district will not rely on the education representative, until the representative is recertified.

Confidentiality and Records Management

The coordinator of special services shall be the custodian of the supplementary records for special education students. Duplicate copies of all guidance case study reports from non-school agencies contained in the student's supplementary records may be maintained in the district office under the supervision of the superintendent or designee. [Board Policy 3600](#) and [Procedure 3600P](#), Student Records, outlines the responsibilities of the custodian and the process to review, response to request for corrections or deletions, and retention and maintenance of records.

A. Surrogate Parents

A surrogate parent is a person appointed by the district to act on behalf of a student to help ensure the rights of the student to FAPE when a parent cannot be identified, the whereabouts of the parent are unknown, or the student is a ward of the state and does not have foster parent.

The school psychologist is responsible for determining the need for appointment of a surrogate parent.

Natural or adoptive parents, foster parents, persons acting in the place of a parent such as stepparents or relatives, and persons with legal custody or guardianship are considered parents. Students who are homeless and not living with a parent may need a surrogate parent.

The following is guidance for the district to follow to assist in determining the status of the parent's rights to make educational decisions.

In cases where the student is in out-of-home care the district must determine the legal custodial status of the child.

1. Parents who have voluntarily placed their child in state placement still retain legal custody of the child and retain the right to make educational decisions. In this situation the student is not a ward of the state;
2. Parents whose children are placed in group care, pending a determination of "dependency" still retain rights to make educational decisions unless otherwise ordered by the court;
3. When a disposition order and order of dependency is issued, the state becomes the legal, as well as physical, custodian of the child. Parents may no longer have the right to make educational decisions during this stage of dependency; and
4. Parents whose parental rights are terminated no longer have the right to make educational decisions on behalf their child.

When a student is placed in foster care, the foster parent may act as the parent. When a student is placed in group care, the district will work with the parents, caseworker(s), foster parents, and others who have knowledge of the student's legal status in order to determine the need for appointment of a surrogate.

When selecting a surrogate parent, the district will select a person willing to participate in making decisions regarding the student's educational program, including participation in the identification, evaluation, placement of and provisions of FAPE to the student.

If a student is referred for special education or a student eligible for special education transfers into the district who may require a surrogate parent, the district special education office will be notified of the potential need. The special education office will then select a trained individual who can adequately represent the student to ensure that all student rights are observed.

The person selected as a surrogate:

1. Must have no interest that conflicts with the interests of the student the person represents;
2. Must have knowledge and skills that assure adequate representation of the student; and
3. May not be an employee of a school district and/or other public agency that is involved in the education or care of the student. This includes OSPI, DSHS, district employees and group care providers.

The district will at a minimum, review with the surrogate parent procedural safeguards, parent involvement in the special education process, parent education publications, and special education regulations. The district will also cooperate with other districts, the educational service district (ESD) or OSPI in training surrogate parents and in establishing a list of persons willing and able to serve as surrogate parents.

B. Mediation

The purpose of mediation is to offer both the parent and the district an alternative to a formal due process hearing. Mediation is voluntary and requires the consent and agreement of both parties. Mediation cannot be used to deny or delay access by a parent to a due process hearing. Mediation is used to resolve disagreements concerning the identification, evaluation and delivery of educational services or provision of FAPE to a special education student. Mediation may be terminated by either party at any time during the process.

The primary participants are the parents, district representatives, and mediator. The process is voluntary, confidential, and informal. It is a collaborative process, conducted in a non-adversarial manner. Mediation services will be provided by the OSPI at no cost to either party.

The district's special education department is responsible for coordinating requests for mediation. If a parent requests mediation, staff will notify a special education administrator who will respond to the parent and coordinate with OSPI's contracted agent. Discussions that occur during the mediation process will be confidential.

One (1) person designated by the district to attend the mediation must have authority to bind the district in any agreement reached through mediation.

Due Process Hearing

Both parents and districts may file due process hearings involving the identification, evaluation, placement, or provision of FAPE to a student. IDEA requires that specific information be provided as part of a due process hearing request. The requirements are identified in the notice of procedural safeguards. If parents request information about how to file a due process hearing, the district will provide the parent with a due process hearing request that contains the required information.

Due process hearing request forms are available through the district's special education central administrative office and on the OSPI Special Education website.

If any staff receives a request for a due process hearing, a copy of the request should be immediately forwarded to the executive director of special services. If the parent has not filed the request for hearing with the Washington State Office of Administrative Hearings (OAH), the district will forward the parent's request to OAH.

The district may not delay or deny a parent's due process hearing request. Parents are entitled to a copy of the notice of procedural safeguards if this is the first due process hearing in a school year. The district special education director or executive director is responsible for providing the parents a copy of the procedural safeguards in this situation and documenting that the safeguards were provided to the parent.

When a parent files a due process hearing, the student remains in the placement at the time of the request for hearing unless the parents and district agree to a different placement. The student's status during the pendency of any proceedings does not preclude the IEP team from meeting, as needed or as required, and updating and implementing the student's IEP, unless those changes are in dispute. See the discipline section below for placements when a disciplinary action is challenged.

When parents file a request for due process hearing, the special education director will immediately schedule a resolution meeting. The meeting must occur within fifteen (15) days after a parent files a due process request with the district and provides a copy of the request to OAH or, within seven (7) days if the hearing request involves an expedited hearing regarding discipline. The special education director will determine the appropriate district staff that will attend the resolution meeting. The district will ensure that one of the district representatives attending the resolution meeting has authority to bind the district in any resolution agreement. The district will not bring district counsel to a resolution meeting unless the parent is bringing an attorney to the meeting.

Any resolution agreement reached will be documented in writing and is binding on the parties. The document will inform the parent of their right to void the agreement within three (3) business days of signing the agreement.

Discipline

Students eligible for special education may be disciplined consistent with the disciplinary rules that apply to all students. The district shall determine on a case-by-case basis whether discipline that is permitted under [Chapter 392-400 WAC](#) should occur. However, students eligible for special education must not be improperly excluded from school for disciplinary reasons that are related to their disability or related to the district's failure to implement a student's IEP. The district shall take steps to ensure that each employee, contractor, and other agents of the district responsible for education or care of a student is knowledgeable of special education disciplinary rules.

A. Removal Up to Ten (10) Days

The IEP team may order the removal of a special education student from a current placement. The district need not provide services to a student who is removed from the current placement for ten (10) school days or less in any school year if services are not provided to a student without disabilities.

B. Removal for More than Ten (10) Days

Once a student has been removed from placement for a total of ten (10) school days in the same school year, and if the district determines that the removal is not a change of placement, the district must, during subsequent days of removal, provide appropriate services to the extent necessary to enable the student to participate in the general curriculum, although in another setting, and to progress toward meeting the goals set out in the student's IEP. The IEP team in consultation with one or more of the student's teachers will make the determination in consultation with special services administration of such necessary services.

C. Change in Placement

A change in placement occurs when an eligible student is:

1. Removed from their current placement for more than ten (10) consecutive school days in a school year; or
2. Subjected to a series of removals in a school year that constitute a pattern of removal because: (1) the series of removals total more than ten (10) school days in a year; (2) the student behavior is substantially similar to the student's behavior in previous incidents that resulted in the series of removals; and (3) because of factors such as the length of each removal, the total amount of time a student is removed, and the proximity of the removals to one another.

Whether a pattern of removal constitutes a change in placement is determined on a case-by-case basis by the building principal and special education director and is subject to review through due process and judicial proceedings. The building principal will notify the special education administrator of any eligible student who may be removed for ten (10) day disciplinary reasons that may exceed ten (10) days.

D. Manifestation Determination

Within ten (10) school days after the date on which the district makes a decision to change the student's placement, the district will schedule a manifestation determination meeting to determine the relationship between the student's disability and the behavior subject to the disciplinary action.

The review of the relationship between a student's disability and the behavior subject to the disciplinary action will occur at a meeting that includes the parent and relevant members of the IEP team who are selected by the parent and the district. The IEP case manager will be responsible for contacting the parent in order to determine relevant IEP team members and provide notice of the meeting. The team shall review all relevant information in the student's file, including the IEP, the evaluation, teacher observations and information provided by the parent to determine:

1. If the conduct was caused by or had a direct and substantial relationship to the child's disability; or
2. If the conduct in question was the direct result of the district's failure to implement the student's IEP.

If the team determines that the behavior resulted from any of the above, the behavior must be considered a manifestation of the student's disability. The district will take immediate action to remedy the deficiencies, and will:

1. Conduct a functional behavioral assessment (unless already completed) and implement a BIP if one is not already in place; or
2. Review the existing BIP and modify it to address the behavior; and
3. Return the child to the placement from which the child was removed from, unless the parent(s) and the district agree a change is necessary as part of the BIP, or unless the infraction involves drugs, weapons, or serious bodily injury.

E. Special Circumstances

School personnel may order a change in placement to an appropriate interim alternative educational setting for the same amount of time that a student without disabilities would be subject to discipline, but for not more than forty-five (45) school days, if a special education student:

1. Possesses a "dangerous weapon" or carries such a weapon to school or to a school function;
2. Knowingly possesses or uses "illegal drugs" while at school or a school function;
3. Sells or solicits the sale of a "controlled substance" while at school or a school function; or
4. Inflicts serious bodily injury upon another person while at school or a school function.
Serious bodily injury means a substantial risk of death, extreme physical pain, protracted and obvious disfigurement or protracted loss or impairment of the function of a bodily member, organ, or mental faculty.

Any interim alternative educational setting in which the student is placed is determined by the student's IEP team and will:

1. Be selected so as to enable the student to participate in the general curriculum, although in another setting and to progress toward meeting the goals set out in the student's IEP; and
2. Include services and modifications designed to address the behavior or to prevent the behavior from recurring.

The district may ask an administrative law judge, or seek injunctive relief through a court having jurisdiction of the parties, to order a change in placement to an appropriate interim alternative educational setting for not more than forty-five (45) school days or seek injunctive relief through a court having jurisdiction of the parties when:

1. The district believes that maintaining the student's current placement is substantially likely to result in injury to the student or others. If the student's IEP team believes that the student may not be maintained in their current placement, the IEP team should work with the district's special education director.

Unless the parent and the district agree otherwise, if a parent requests a hearing to challenge either the manifestation determination or the interim alternative educational setting, the student must remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the forty-five (45) day period, whichever occurs first.

F. Basis of Knowledge

A student who has not been determined eligible for special education services may assert the protections if the district had knowledge that the student was eligible for special education before the behavior that precipitated disciplinary action occurred.

The district is deemed to have knowledge if:

1. The parent expressed concern in writing (or orally if the parent does not know how to write or has a disability that prevents a written statement) to district supervisory or administrative personnel or a teacher that the student is in need of special education and related services;
2. The parent requested that the student be evaluated for special education services; or
3. The teacher or other school personnel has expressed specific concern about a pattern of behavior demonstrated by the student to the administrator in special education or to other supervisory staff.

If instituting disciplinary action that would exceed ten (10) days and the principal believes that one (1) or more of these events applies to the student, the principal will notify the special education administrator to determine the appropriate disciplinary procedures.

The district is not deemed to have knowledge if, as a result of receiving the information described above, the district either:

1. Conducted a special education evaluation of the student and determined that the student was not eligible for services; or
2. The parent of the student has not allowed an evaluation of the child or has refused services.

If the district is not deemed to have knowledge that a student is eligible for special education services, the student may be disciplined as a student without disabilities who engages in comparable behaviors. The district shall conduct an evaluation, which is requested during the time period such a student is subjected to disciplinary measures, in an expedited manner. Until the evaluation is completed, such a student shall remain in the educational placement determined by the district, which depending upon the behavior can include suspension or expulsion.

Notwithstanding the foregoing, the district may report a crime committed by a student eligible for special education services to appropriate authorities. In the event of such a report, the district shall ensure that copies of the student's special education and disciplinary records are transmitted for consideration by the appropriate authorities to whom the crime is reported, to the extent transmission of the records is permitted by the Family Educational Rights and Privacy Act (FERPA).

Staff Qualifications

All employees of the district funded in whole or part with state or federal excess special education funds will meet the standards established by the Professional Educator Standards Board (PESB) and defined in [WAC 392-172A-02090](#).

All employees will hold such credentials, certificates, or permits as are now or hereafter required by the PESB for the particular position of employment.

Special education and related services must be provided by appropriately qualified staff. Other staff including general education teachers and paraeducators may assist in the provision of special education and related services, provided that the instruction is designed and supervised by special education certificated staff (or early childhood special education certificated staff, deaf education certificated staff, deaf education with American Sign Language proficiency certificated staff, teacher of the visually impaired certificated staff), or for related services by a certificated educational staff associate. Student progress must be monitored and evaluated by special education certificated staff or for related services, a certificated educational staff associate.

In the event a special education teacher does not have a certificate endorsed in special education (or early childhood special education endorsement, deaf education endorsement, deaf education with American sign Language proficiency endorsement, teacher of the visually impaired endorsement), a district may apply for a pre-endorsement waiver through the special education section of OSPI. To qualify for the special education pre-endorsement waiver, the teacher must meet the PESB criteria outlined in [WAC 181-82-110](#).

If the district must temporarily assign a classroom teacher without a special education endorsement (or early childhood special education endorsement, deaf education endorsement, deaf education with American Sign Language proficiency endorsement, teacher of the visually impaired endorsement) to a special education position, the executive director of human resources will document in writing that:

- a. The district is unable to recruit a teacher with the proper endorsement who was qualified for the position; and/or

- b. The need for a teacher with such an endorsement could not have been reasonably anticipated and the recruitment of such a classroom teacher at the time of assignment was not reasonably practical; and/or
- c. The reassignment of another teacher within the district would be unreasonably disruptive to the current assignments of other classroom teachers or would have an adverse effect on the educational program of the students assigned to the other teacher.

If one or more of these criteria can be documented, the district determines that a teacher has the competencies to be an effective special education teacher, and the teacher has two hundred forty (240) clock hours (or the equivalent of 24 quarter or 16 semester credits) applicable to one or more Washington state special education teaching certificates (early childhood special education endorsement, deaf education endorsement, deaf education with American Sign Language proficiency endorsement, teacher of the visually impaired endorsement), the district can assign the teacher to special education in compliance with the process for making out-of-endorsement assignments and reporting them to the state.

Classified staff will present evidence of skills and knowledge necessary to meet the needs of students with disabilities. The district will provide training to classified staff to meet the state-recommended core competencies.

Personnel Development

In order to provide a staff development program to improve the quality of instructional programs, the following procedures will be employed:

- 1. Special education concerns will be identified through a staff needs assessment completed by administrators, teachers, educational staff associates, program assistants, parents, and volunteers;
- 2. All personnel who use restraint, restraint devices and/or isolation must be currently certified and annually trained in the use of such restraint, restraint devices and/or isolation;
- 3. In-service training schedules will be developed based upon the results of the district assessment and in support of needs identified;
- 4. Training activities will be conducted for regular general and special education staff, and staff of other agencies and organizations and private school staff providing services for students eligible for special education; and
- 5. Training for classified staff in the state-recommended core competencies would occur through district-sponsored training activities and attendance at training activities provided by the regional ESD.

Public Participation

Any application and any required policies, procedures, evaluations, plans, and reports are readily available to parents and other members of the public through the district's special services office and the office of the superintendent. A notice regarding the availability of such documents will be placed on the district's website and in the [Student Rights and Responsibilities Handbook](#).

REFERRAL FOR SPECIAL EDUCATION EVALUATION – OVERVIEW

Purpose

This form is meant to help parents, district staff, public agencies, or other people with information about a student to request a special education evaluation (also called a “special education referral”). This form is **not required** – any written request for evaluation is valid. Everett Public Schools may follow up a verbal, email, or other written request with a request to complete this form but may not require the referrer to complete the form prior to considering the student for evaluation. It is important to note that the twenty-five (25)-day timeline described below starts as soon as the request is received, whether or not this form is used.

Process

Once the district receives a written request for evaluation in any form/format, we have **25 school days** to review information about the student, including school and medical records and information from parents, and decide whether to evaluate the student for special education eligibility. If the district decides to evaluate, we must obtain written and informed consent from the parent prior to beginning the initial evaluation. See the timeline flow chart below.

Timelines for Referral, Initial Evaluation, and Initial IEP

REFERRAL FOR SPECIAL EDUCATION EVALUATION

(Please provide completed forms to the school psychologist)

Date: _____

I would like to request a special education evaluation for the following student:

Student name: _____ Birthdate: _____

School name (if in school): _____ Grade: _____ Age: _____

My name: _____ My relationship to the student: _____

Phone: _____ Email: _____

Language(s) spoken in the home: _____

Has this student been evaluated for special education in the past? ☐ Yes ☐ No ☐ I do not know

If yes, when and where was the evaluation? _____ ☐ I do not know

<u>My concerns for the student are: (check all that apply)</u>	
<u>Academic Concerns</u>	<u>Physical/Behavioral Concerns</u>
☐ Reading or understanding what is read	☐ Attention and concentration
☐ Writing (putting thoughts/ideas into written words and sentences)	☐ Complying with adult directives
☐ Math (calculating or problem solving)	☐ Easily frustrated
☐ Following directions	☐ Extreme mood swings
☐ Putting thoughts into spoken words (expressive communication)	☐ Social/peer interaction skills
☐ Understanding spoken words (receptive communication)	☐ Motivational issues
☐ Pronouncing words and sounds (articulation)	☐ Physical/motor concerns (e.g., holding a pencil, walking upstairs, bouncing a ball, etc.)
	☐ Adaptive skills (e.g., toileting, hygiene, personal safety skills, managing money, etc.)
	☐ School attendance issues
☐ Other:	☐ Other:
☐ Other:	☐ Other:
☐ Other:	☐ Other:

In the sections below, please provide additional information that you would like the district to know. This information is not required but would be helpful to the district when determining whether to evaluate.

Tell us more about your concerns for the student. Where do you see the student struggling?

What has already been tried to help the student? *Examples could include interventions implemented as part of a multi-tiered system of supports (MTSS), Learning Assistance Program (LAP), Title I, etc.*

Support	How did this support help the student?
☐ Tutoring	
☐ Small group instruction	
☐ Behavior plan	
☐ Other:	
☐ Other:	

Is there medical or health information about the student that the district should know? Does the student take any medications?

Is there any other information you would like to share? Is there any paperwork or other records you can share?
