

## COMMUNITY RELATIONS

### Language Access Plan

The following procedures are intended to establish meaningful, two-way communication between the district and parents/guardians **and family members** with limited English proficiency (**LEP**) and promote access for such parents/guardians **and family members** to the programs, services, and activities of the district.

#### A. Definitions

1. Persons with “**limited English proficiency**” are individuals who are unable to communicate effectively in English either verbally or in writing, or both, because their primary language is not English, and they have not developed fluency in the English language. A person with **limited English proficiency LEP** may have difficulty in one or more of four domains of language: speaking, listening, reading, and writing. **Staff are urged to remember that limited English proficiency may be context-specific—e.g., a parent/guardian may have sufficient English language skills to understand, communicate and/or exchange basic information with a teacher, but they may not have sufficient skills to communicate detailed, specific information needed in a particular context, like an IEP meeting, a 504 meeting, or a student discipline hearing.**
- ~~2. “LEP parent(s)” refers to the parent(s) or guardian(s) of a student enrolled in the district who have limited English proficiency, even if the student is proficient in English. This term does not include family members of the student other than their parent(s) or guardian(s).~~
- ~~23. “Primary language” means the primary language spoken by a student’s parent or guardian, or the predominant language spoken in the student’s home. Parents/guardians may have more than one primary language and/or dialect.~~
- ~~34. “Language services” refers to a broad spectrum of services used or required to facilitate communication and understanding between speakers of different languages, and typically includes interpretation and translation services.~~
- ~~45. “Interpretation” means the process of first fully understanding, analyzing, and processing a spoken or signed message and then faithfully rendering it into another spoken or signed language act of contemporaneous communication between a speaker of English and a speaker of another language wherein the words of one person are communicated to others orally in a different language.~~
5. **“Interpreter” means a spoken language or sign language interpreter working in a public school, as defined in RCW 28A.150.010, to interpret for students’ families, students, and communities in educational settings outside the classroom. The district will take reasonable steps to utilize competent interpreters who are both fluent in English and have demonstrated language proficiency in the requested other language through certification or who are employed by a particular vendor or service contracted to provide interpretation services in the requested language.**

6. “Translation” means the process of communicating the meaning of a written source language text into an equivalent target language text in such a way that the content of both texts can be considered the same. ~~communication between a speaker of English and a speaker of another language where the written words of one person are communicated to others in writing in a different language.~~
7. “Qualified Interpreter” means an interpreter who is able to interpret effectively, accurately, and impartially, both receptively and expressively using necessary specialized vocabulary.

## **B. Language Access Program**

**The district’s language access program will include completion of the following activities:**

- **Adopting or developing a language access plan that outlines how the district will identify language access needs, allocate resources, establish standards for providing language access services, and monitor the effectiveness of the language access program (additional information about how to develop the language access plan is provided in a subsequent section of this procedure);**
- **Administering the self-assessment developed by the Language Access Technical Assistance Program of Center for Improvement of Student Learning, established in [RCW 28A.300.130](#) for evaluating the provision of language access services (additional information about the self-assessment is provided in a subsequent section of this procedure;**
- **Using the guide developed by the Language Access Technical Assistance Program of Center for Improvement of Student Learning, established in [RCW 28A.300.130](#) for developing, implementing, and evaluating the district’s language access policy, procedures, and plan. The processes for developing and evaluating the language access policy, procedures, and plan must engage staff, students’ families, and other community members in ways likely to result in timely and meaningful feedback, for example partnering with community-based organizations and providing translation and interpretation in languages that are understood by students’ families;**
- **Reviewing, periodically, the district’s language access policy and procedures to incorporate necessary updates;**
- **Collaborating with community-based organizations on how to work effectively with interpreters and families; and**
- **Reviewing, updating, and publishing, at least annually, information about the school district’s language access plan, policy and procedures, and language access services, including the need for, and spending on, language access services. The information must include notice to families about their right to free language access services and the contact information for any school district language access coordinator and any building points of contact for language access services. The information must be translated into common languages understood by students’ families.**

## Developing a Language Access Plan

The district will develop a language access plan for ensuring the district complies with the language access policy adopted by the board and all other language access requirements. The language access plan will establish the following:

- Who is responsible for implementing the plan, including district-level administrators, workgroups, committees, or other district and school staff who will be responsible for overseeing the language access work in the district and schools, developing and modifying the language access plan, establishing and implementing operational procedures (i.e., how staff may access interpretation and translation services), and monitoring and evaluating the effectiveness of the district's language access plan and services.
- Staff training on the district's language access policy, procedure, and plan, including the frequency, curriculum, and target personnel who will participate in the training.
- Identification of the language access needs in the district and the services that will be provided. The plan will include a list of the languages that students, parents, and families communicate in and the prevalence of those languages. The plan will also identify the languages in the district that vital publications most commonly must be regularly translated into, in alignment with this procedure.
- How the district will conduct outreach to parents and communities with language assistance needs and the actions needed to implement an effective system for gathering feedback.
- What resources will be allocated for the provision of language access services.
- A description of the timeframe, objectives, and benchmarks for work to be undertaken.
- The district's approach to monitoring and evaluating the effectiveness of the district's language access plan and services, and the district's process for modifying the language access plan and operating procedures in response to feedback and changing language needs.
- In developing and modifying the language access plan, the district will use self-assessment data and other collected feedback and data required in this procedure and/or the policy adopted by the board.
- In developing the language access plan, the district will adhere to the standards for providing language access services as outlined in this procedure and the policy adopted by the board.

## Self-Assessment

- In developing the language access plan, the language access coordinator/liaison will administer a self-assessment to understand whether the district is effectively communicating with people with language assistance needs and to inform the district's language access planning, including evaluating the following areas:
  - How individuals with language access needs interact with the district

- How well the district is providing language assistance services
- How well the district is identifying individuals with language access needs
- Whether school staff receive appropriate training on the district's language access and policy and plan
- How the district provides notice of language assistance services to its community
- Whether the district has an effective process for monitoring and updating its language access policy and plan.
- In implementing the self-assessment, the language access coordinator/liaison will engage with community members, leaders, and organizations that have the inherent knowledge about cultural and language access needs.
- The coordinator/liaison may administer the self-assessment tool developed by the Office of the Superintendent of Public Instruction (OSPI) Language Access Technical Assistance Program of Center for Improvement of Student Learning, established in [RCW 28A.300.130](#) for evaluating the provision of language access services.
- The coordinator/liaison will re-administer the self-assessment on a periodic basis as part of the district's monitoring of the effectiveness of its language access program.

## **CB. Parent/Guardian Identification of Families Needing Language Access Services**

1. Upon student enrollment and periodically through a student's education, schools will utilize a survey to identify parents/guardians who need language services and the languages in which they may need assistance. The survey will be translated into the most commonly known languages spoken in the district and will be included in the standard enrollment packet provided to all district parents/guardians.
2. Schools will make every effort to determine within thirty (30) days of a student's enrollment the primary language spoken by the student's parent(s)/guardian(s), and if such language is not English, whether the parent(s)/guardian(s) requires language services in order to communicate effectively with the school or district.
3. Schools will maintain a record of the students' families' primary language spoken by a student's parent(s)/guardian(s), and use that information to inform its language access plan and program ~~such record will be available to the district.~~

## **DC. Interpretation and Translation Services**

1. The district will collaborate with community-based organizations on how to work effectively with interpreters and families.
2. As materials become available, the district will make reasonable efforts to implement the toolkit developed by the Language Access Technical Assistance Program of the Center for the Improvement of Student Learning, established in [RCW 28A.300.130](#), including the self-assessment, guide, and best practices.

- 53. The parent is welcome to invite additional persons for support and that person may participate in discussions. Although a parent may decline the district's offer to provide an interpreter, the district or school should consider whether having a qualified interpreter present as the communication lead is still required. Parents/guardians may decline the district's offer of an interpreter and choose instead to rely on an adult friend/companion or relative for language and interpretation services, but school staff may not suggest this as an alternative to providing appropriate language and interpretation services.**
- Students and other minor children under the age of 18 may **not** serve as interpreters for school staff and parents/guardians during any formal or informal meeting or process, except in emergency situations.
- 64.** The district will facilitate staff access to appropriate interpretation and translation services in order to communicate with **LEP** parents/guardians **and families with limited English proficiency** consistent with federal and/or state law. **The district will strive to be aware of and plan for the language access needs within the district. For a planned program, activity, meeting, or event, staff should initiate the request for language aid or services at least three days ahead of time. The district or school will take steps to respond to such a request as soon as possible after it is received. For unplanned and urgent communication, staff should request language assistance and try to arrange for such as soon as it is known that language assistance is needed. If an interpreter cannot be found that day, the school or district should maintain open communication with the requester to schedule an interpreted meeting as soon as possible.** If no interpreter can be present, district staff should utilize **remote interpreting services a language bank, resource line or online service** to communicate with parents/guardians **and families**.
