

The School Board recognizes the value of physical education to the maintenance of the health and vitality of all students, and the development of lifelong habits which enhance personal fitness, social and emotional learning, and wellness. It shall be the policy of the Board that:

- Physical Education shall be available to all students.
- Students in grades 6 through 8 shall be provided on average 100 minutes per week per year.
- The physical activity portion requirement could be waived if the student meets one of the following four waiver options AND completes the knowledge portion with proficiency in physical education in 8th grade administered through district PE Department.
