

# What is a Student Information System (SIS)?

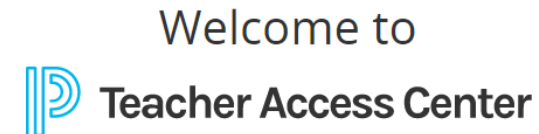

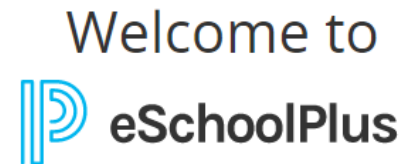

**A software solution that enables schools to manage student information more efficiently.**

- Program management
- Student management
- Managing student data with an SIS
- Attendance
- Grading
- Master Schedule
- Student Portal
- Staff Portal
- Parent Portal
- And more

# What is our SIS now?

- eSchoolPlus
- PowerSchool
  - Enrollment
  - Special Programs
- Cognos
- Gradebook
- TAC: Teacher Access Center
- Home Access Center

Home Access Center

EPS Gradebook

# Why are we looking into acquiring a new SIS?

- Current system- only used by 3 WA ( soon to be 2) school districts
- Currently gradebook and our SIS are separate
  - Grading and Assessment Initiative
  - Strategic step toward achieving our initiative
- Potential for all Systems in One
- New SIS = potentially new features
  - Mobile Applications for teachers, administrators, and students/families

## 2022 Capital Levy Projects

# Our process: Phases

## Our Consultant: Matthew Rakes

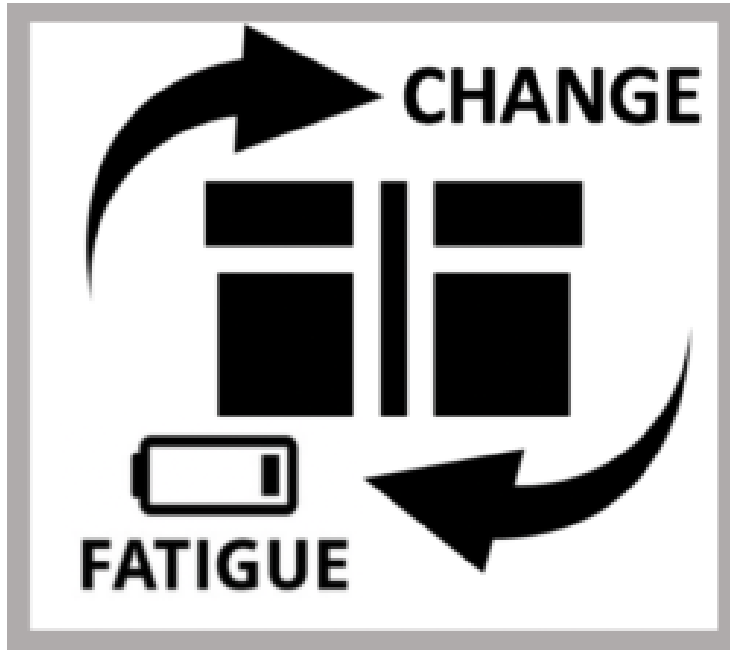

- Former Corvallis School District Classroom Technology Administrator
  - Set all classroom Technology and Staff/Student Device standards
  - Managed all major technology projects including district wide Bond work, replacement and deployment cycles, staff technology training
- Project Management Milestones:
  - Set and deployed standards for :
    - 1 to 1 devices for k-12
    - staff devices district wide
    - classroom technology district wide
    - Computer labs and CTE programs
  - Full staff training on all new devices and software

# Common Frustrations

- What are your common pain points with the current SIS? This can be things that the current SIS does not allow, are over-complicated, take too long, or often seem to not work correctly.

## Largest Concerns

- What are your largest concerns with switching over to a new SIS?

# Dream Features

- What are some features of a new SIS that would make your daily work easier and more efficient?

# Your voice matters

## Everett PS: SIS Implementation Stakeholder Form

### District Role \*

Please let us know if you are a teacher, an OM, a Registrar, etc.

### Daily Usage \*

How much time do you spend working in the SIS program?

### Main Roles/Tasks \*

Please select from the drop-down the roles or tasks that best describe your usage of the SIS. **You may select multiple items if more than one described your roles or tasks.**
