

Pilchuck Audubon Society Zalesky Classroom Conservation Grant For Elementary School Teachers

The goal of this program is to encourage elementary school students to learn about and develop a desire to conserve and protect our natural resources. This will be achieved by providing funds to Snohomish County elementary classroom teachers to be used to supplement their existing curriculum.

Multiple grants of up to \$500 will be made annually to Snohomish County public and/or private school teachers for conservation and science-related learning activities and/or materials (not salaries) that enhance and enrich a classroom program. Grants may be repeated by reapplying in subsequent years.

The final product must involve all students in the classroom and demonstrate achievable and relevant wildlife and conservation goals.

Projects that have been funded in the past include fish hatchery field trips, wetland restoration, recycling projects, building nature trails, speakers, bird study projects, clean water posters, and accessory nature books.

Applications for the awards must be submitted by November 1. All applicants will be notified by December 1.

Instructions: Please e-mail your application as an attached document to:
classroom.awards@pilchuckaudubon.org
