

LETTER OF AGREEMENT
Between
Everett School District No. 2
And
Everett Coaches / Extracurricular Association

Extracurricular Clubs – Robotics, First Tech Challenge (MS) Stipend for the 2023-2024 School Year

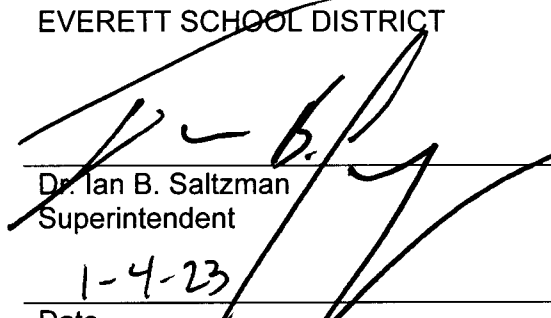

The Everett Coaches / Extracurricular Association ("ECEA") and the Everett School District No. 2 ("District") hereby acknowledge and agree to the following for the 2023-24 school year:

Employees coaching First Tech Challenge at the Middle School level currently receive the First Lego League Robotics stipend. In recognition of the differences in working conditions and additional duties of the First Tech Challenge coaching role, the District and ECEA agree that the 2023-2024 stipend for First Tech Challenge Robotics coaches at the Middle School level shall be the First Robotics Assistant stipend, as established in paragraph C of the Salary Schedule.

Because of the year-round nature of the First Tech Challenge position, as reflected in the revised stipend, First Tech Challenge Robotics coaches are not eligible for post-season pay.

This memorandum is effective upon execution by the parties. Differential retroactive pay for the 2023-2024 school year will be provided. This memorandum will expire on August 31, 2024, subject to extension or modification by mutual agreement of the parties.
