

PROPOSED REVISION

INSTRUCTION

High School Graduation Requirements

The mission of Everett Public Schools is to inspire, educate, and prepare each student to achieve to high standards, contribute to our community, and thrive in a global society. Therefore, the board of directors has established graduation requirements aligned with those established by the State Board of Education to ensure students are prepared for post-secondary education, training, and career with 21st century skills and the foundations needed for lifelong learning.

To graduate from high school, each student must meet the following requirements:

- A. Complete the credit and subject requirements specified below; and
- B. Demonstrate career and college readiness by completing a High School and Beyond Plan; and
- C. Meet the requirements of at least one (1) graduation pathway in math and in English Language Arts described below.

Two-Credit Academic Waiver for Individual Student Circumstances

Everett Public Schools seeks to provide all students with the opportunity to complete graduation requirements without discrimination and without disparate impact on groups of students. In so doing, the board of directors acknowledges that circumstances may arise that prevent a student from earning all twenty-four credits (24) required for high school graduation beginning with the class of 2021. Such circumstances may include, but are not limited to, the following:

- Homelessness;
- A health condition resulting in an inability to attend class;
- Limited English proficiency;
- Disability, regardless of whether the student has an individualized education program or a plan under Section 504 of the federal Rehabilitation Act of 1973;
- Denial of an opportunity to retake classes or enroll in remedial classes free of charge during the first four (4) years of high school;
- Transfer during the last two (2) years of high school from a school with different graduation requirements;
- In or have been released from an institutional education facility ([ESSHB 1295](#)); and
- Other circumstances (e.g., emergency, natural disaster, trauma, personal or family crisis, or other circumstance) that directly compromised a student's ability to learn.

The board delegates to the superintendent/designee discretion to grant a waiver of a maximum of two (2) elective credits required for graduation.

PROPOSED REVISION

In order to graduate, students granted a waiver must earn seventeen (17) required subject credits (four English, three Math, three Science, three Social Studies, two Health and Fitness, one Arts, one Career and Technical Education) which may be completed by satisfactory demonstration of competence as provided by [WAC 180-51-050](#).

Graduation Requirements Emergency Waiver (GREW)

In July 2021, the State Board of Education (SBE) passed permanent rules allowing school districts to offer waivers of certain graduation requirements on an individual student basis during certain emergencies, including the COVID-19 public health crisis. For the 2023-24 school year, the GREW rules permit the waiver of up to one (1) core or flexible credit **and the waiver of the graduation pathway in English Language Arts and/or math, if the district has not also waived a core course requirement in the same subject for the student.** ~~for s~~Students in the classes of 2021, 2022, 2023, and 2024 graduating in the 2023-24 school year as described in [Chapter 180-111 WAC](#); **are eligible to access the GREW, if they also meet the following criteria:**

~~Seniors who meet the following criteria may access the GREW:~~

- Reasonably expected to graduate; and
- Impacted by significant disruption to their education; and
- Can demonstrate postsecondary preparation; and
- Finish their High School and Beyond Plan and all specific graduation requirements (credits and graduation pathways) needed for their postsecondary plan no later than August 31, 2024.

In order to graduate, the GREW may be combined with the Two-Credit Academic Waiver for Individual Student Circumstances. The student must earn a total of 21 credits to graduate.

Graduation Requirements for the Class of 2022 and Beyond

The following shall be required of each candidate for graduation who commences the ninth grade on or after July 1, 2018 for the class of 2022, on or after July 1, 2019 for the class of 2023, on or after July 1, 2020 for the class of 2024, on or after July 1, 2021 for the class of 2025, on or after July 1, 2022 for the class of 2026, and on or after July 1, 2023 for the class of 2027. Students who qualify for special education services may have graduation requirements modified or a graduation credit and subject area requirement may be substituted with comparable content course work, as identified in the student's Individual Education Plan (IEP) and aligned with the student's High School and Beyond Plan ([WAC 180-51-115](#)).

A. Credits in Required Subject Areas of Study

GRADUATION REQUIREMENTS FOR THE CLASS OF 2022 AND BEYOND		
Subject	Minimum Credit State Requirements	Minimum Credit Everett School District Requirements
English	4.0	4.0
English 1		1.0
English 2		1.0
English 3		1.0
English 4		1.0

PROPOSED REVISION

Mathematics	3.0	3.0
Algebra 1 or Algebraic Concepts	1.0	1.0
Geometry or Geometry in Application	1.0	1.0
Algebra 2, Advanced Algebraic Concepts, or Third Credit of High School Math	1.0	1.01
Social Studies	3.0	3.0
World History	1.0	1.0
US History	1.0	1.0
Civics	0.5	0.5
Social Studies Elective	0.5	0.5 ²
Washington State History and Government	Non-Credit Requirement	Non-Credit Requirement
Science	3.0	3.0 ³
Biology and the Environment		1.0
Physics in the Universe or Chemistry in the Earth System		1.0
Third Credit of Science Elective		1.0 ⁴
Career and Technical Education	1.0	1.0
Health and Fitness	2.0	2.0 ⁵
Family Health	0.5	0.5
Physical Education	1.5	1.5
Arts	2.0	2.0 ⁶

College and Career Readiness Seminar		0.5
Electives	4.0	3.5
Total Credits	24	24

Footnotes for the Class of 2022 and Beyond

1. The third credit of high school math is based on the student's High School and Beyond Plan approved by the student and the parent or guardian, or a school counselor or school principal.
2. The social studies elective requirement is fulfilled by a social science course defined by the Washington Student Achievement Council as meeting college entrance requirements, e.g., history, anthropology, contemporary world problems, economics, geography, government, political science, or psychology.

PROPOSED REVISION

2410

Page 4 of 10

3. Two of the three science credits are required to be lab-based. A lab-based science is defined as: “Laboratory experiences provided opportunities for students to interact directly with the material world (or with data drawn from the material world), using the tools, data collection techniques, models and theories of science.” *The National Research Council. (2006) America’s Lab Report: Investigations in High School Science.*
4. The third credit of science is based on the subject’s High School and Beyond Plan and approved by the student and the parent or guardian, or a school counselor or principal.
5. One class must include instruction in cardiopulmonary resuscitation (CPR) and the use of automated external defibrillators (AEDs).
6. Up to 1.0 of arts credit may be replaced with a Personalized Pathway Requirement (PPR). A PPR is a locally determined course that leads to a specific post-high school career outcome chosen by the student, based on the student’s High School and Beyond Plan.
7. Up to 2.0 of world language credits may be replaced with PPR as described above.
8. To align with the Washington Student Achievement Council College Admission Standards, students must earn 1.0 credit in a mathematics-based quantitative course during the senior year of high school. This requirement may be met by earning credit in one of the three required mathematics courses; or earning credit in a mathematics-based quantitative course like statistics, applied mathematics, or appropriate career and technical courses; or by earning credit in an algebra-based science course taken during the senior year. Completion of higher-level mathematics prior to the senior year fulfills this requirement (e.g., pre-calculus, mathematics analysis or calculus).

Upon approval by the equivalency course committee, some courses may satisfy more than one graduation requirement. Courses approved for equivalency must align with core academic skills and content at a sufficient level to justify the granting of CTE equivalence credit, as well as grade level expectations, performance expectations, program standards, classroom-based performance standards, national standards, or college readiness standards as determined by the district. If a student fulfills graduation requirements by using equivalency courses, additional elective courses will be required so that the student earns the 24 credits required for graduation.

B. High School and Beyond Plan Requirement

Each student must have a High School and Beyond Plan to guide the student’s high school experience and inform course taking that is aligned with the student’s goals for education or training and career after high school.

For students who qualify for special education services, the High School and Beyond Plan must be developed in alignment with their IEP and in a similar manner and with similar school personnel as for all other students.

C. Graduation Pathways

Students must satisfy at least one math and one ELA pathway as listed below:

PROPOSED REVISION

Math	English Language Arts (ELA)
Meet the graduation score on the high school math Smarter Balanced Assessment (SBA)	Meet the graduation score on the high school English Language Arts SBA
Earn one (1) high school credit in a dual enrollment math class, which includes College in the High School, Running Start (100-level or above), and/or Career and Technical Education (CTE) Dual Credit math classes; student must be eligible for the college credit, but it is not necessary to claim the college credit	Earn one (1) high school credit in a dual enrollment English class, which includes College in the High School, Running Start (100-level or above), and/or CTE Dual Credit English classes; student must be eligible for the college credit, but it is not necessary to claim the college credit to meet the ELA dual enrollment pathway option
Earn credit in a high school math transition course (Bridge to College Math course)	Earn credit in a high school ELA transition course (not currently available in the district)
Earn a C+ or higher in both terms of a qualifying AP math course or a 3 or higher on a qualifying AP math exam: AP Statistics, AP Computer Science A, AP Computer Science Principles, and AP Calculus	Earn a C+ or higher in both terms of a qualifying AP ELA course or a 3 or higher on a qualifying AP ELA exam: AP English Language and Composition, AP English Literature and Composition, AP Macroeconomics, AP Microeconomics, AP Psychology, AP US History, AP World History, and AP US Government and Politics
Meet the graduation score on the SAT or ACT in math	Meet the graduation score on the SAT or ACT in ELA
Meet minimum score eligible for graduation on the Armed Services Vocational Aptitude Battery (ASVAB). The ASVAB pathway qualifies to meet both math and ELA requirements.	
Complete a qualifying sequence of career and technical (CTE) courses as defined by the State Board of Education. Approved state and local CTE pathways qualify to meet both math and ELA requirements.	

Graduation Requirements for the Class of 2021

The following shall be required of each candidate for graduation who commences the ninth grade on or after July 1, 2017 for the class of 2021. Students who qualify for special education services may have graduation requirements modified or waived as per their IEP.

2. The social studies elective requirement is fulfilled by a social science course defined by the Washington Student Achievement Council as meeting college entrance requirements, e.g., history, anthropology, contemporary world problems, economics, geography, government, political science, or psychology.
3. Two of the three science credits are required to be lab-based. A lab-based science is defined as: “Laboratory experiences provided opportunities for students to interact directly with the material world (or with data drawn from the material world), using the tools, data collection techniques, models and theories of science.” *The National Research Council. (2006) America’s Lab Report: Investigations in High School Science.*
4. The third credit of science is based on the subject’s High School and Beyond Plan and approved by the student and the parent or guardian, or a school counselor or principal.
5. One class must include instruction in cardiopulmonary resuscitation (CPR) and the use of automated external defibrillators (AEDs).
6. Up to 1.0 of arts credit may be replaced with a Personalized Pathway Requirement (PPR). A PPR is a locally determined course that leads to a specific post-high school career outcome chosen by the student, based on the student’s interest and High School and Beyond Plan.
7. Up to 2.0 of world language credits may be replaced with PPR as described above.
8. To align with the Washington Student Achievement Council College Admission Standards, students must earn 1.0 credit in a mathematics-based quantitative course during the senior year of high school. This requirement may be met by earning credit in one of the three required mathematics courses; or earning credit in a mathematics-based quantitative course like statistics, applied mathematics, or appropriate career and technical courses; or by earning credit in an algebra-based science course taken during the senior year. Completion of higher-level mathematics prior to the senior year fulfills this requirement (e.g., pre-calculus, mathematics analysis or calculus).

Upon approval by the equivalency course committee, some courses may satisfy more than one graduation requirement. Courses approved for equivalency must align with core academic skills and content at a sufficient level to justify the granting of CTE equivalence credit, as well as grade level expectations, performance expectations, program standards, classroom-based performance standards, national standards, or college readiness standards as determined by the district. If a student fulfills graduation requirements by using equivalency courses, additional elective courses will be required so that the student earns the 24 credits required for graduation.

B. High School and Beyond Plan Requirement

Each student must have a High School and Beyond Plan to guide the student’s high school experience and inform course taking that is aligned with the student’s goals for education or training and career after high school.

For students who qualify for special education services, the High School and Beyond Plan must be developed in alignment with their IEP and in a similar manner and with similar school personnel as for all other students.

PROPOSED REVISION

C. Graduation Pathways

Students must satisfy at least one math and one ELA pathway as listed below:

Math	English Language Arts (ELA)
Meet the graduation score on the high school math Smarter Balanced Assessment (SBA)	Meet the graduation score on the high school SBA
Earn one (1) high school credit in a dual enrollment math class, which includes College in the High School, Running Start (100-level or above), and/or Career and Technical Education (CTE) Dual Credit math classes; student must be eligible for the college credit, but it is not necessary to claim the college credit to meet the math dual enrollment pathway option	Earn one (1) high school credit in a dual enrollment English class, which includes College in the High School, Running Start (100-level or above), and/or Career and Technical Education (CTE) Dual Credit math classes; student must be eligible for the college credit, but it is not necessary to claim the college credit to meet the ELA dual enrollment pathway option
Earn credit in a high school math transition course (Bridge to College Math course)	Earn credit in a high school ELA transition course (not currently available in the district)
Earn a C+ or higher in both terms of a qualifying AP math course or a 3 or higher on a qualifying AP math exam: AP Statistics, AP Computer Science A, AP Computer Science Principles, and AP Calculus	Earn a C+ or higher in both terms of a qualifying AP ELA course or a 3 or higher on a qualifying AP ELA exam: AP English Language and Composition, AP English Literature and Composition, AP Macroeconomics, AP Microeconomics, AP Psychology, AP US History, AP World History, and AP US Government and Politics
Meet the graduation score on the high school math SBA	Meet the graduation score on the high school ELA SBA
Meet the minimum score eligible for graduation on the Armed Services Vocational Aptitude Battery (ASVAB). The ASVAB pathway qualifies to meet both math and ELA requirements.	
Complete a qualifying sequence of career and technical (CTE) courses as defined by the State Board of Education. Approved state and local CTE pathways qualify to meet both math and ELA requirements.	

For students who qualify for special education services, the student’s IEP team must determine whether the graduation pathway options described above are appropriate for the student. If the IEP team determines that those options are not appropriate, then the student must earn a Certificate of Individual Achievement (CIA) to graduate.
