STUDENTS

Technology

The board of directors recognizes the importance of technology in providing quality education and opportunities for students. The board believes that access to technology resources and the skills students develop, **including appropriate use of Artificial Intelligence (AI)**, play an important part in the learning process and the success of students in the future.

The superintendent shall develop procedures that encourage student use of technology and the school district's computer networks, while establishing reasonable controls for its lawful, efficient and appropriate use.

To help ensure student safety and citizenship in appropriate, ethical online activities, students will be educated about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms, and cyberbullying awareness and response.
