STUDENTS

Use of Physical Restraint and Isolation with Students

The district strives to maintain a safe and beneficial learning environment for all students. Physical restraint and isolation of a student should be avoided; however, on occasion it may be necessary to use physical restraint or to isolate a student to preserve the safety of students and staff. Restraint, isolation, and other forms of reasonable force may be used on a student when reasonably necessary to control spontaneous behavior that poses an imminent likelihood of serious harm as defined by [RCW 71.05.020](#) and [Chapter 392-172A WAC](#) and explained in [Procedure 3319P](#) [Procedure 2210P](#).

If restraint or isolation as defined by state law is used, school staff will promptly notify the principal or principal's designee, who will verbally notify the parent/guardian of the affected student within 24 hours and will send written notification to the parent/guardian of the affected student within five (5) business days of the use of restraint or isolation. School staff will document the incident in a written report within two (2) business days. The principal or principal's designee will review the incident with the staff member involved and the student and the parent/guardian.

Parents or guardians of students who have individualized education programs (IEPs) or Section 504 plans will be provided a copy of the district's policy and procedure on use of physical restraint and isolation at the time the IEP or plan is created. In addition, the IEP or Section 504 plan will include within the plan procedures for notification of a parent/guardian regarding the use of restraint or isolation.
