# College of Veterinary Medicine

## VETERINARY PARAPROFESSIONAL CERTIFICATES

**Washington State University has two (2) options for students 16-17 interested in a future career in veterinary medicine!**

**100% ASYNCHRONOUS - WORK AT YOUR OWN PACE - \$500 PER COURSE**

### JUNIOR VETERINARY SCRIBE CERTIFICATE

Enroll today in our Junior Veterinary Scribe Certificate program, specifically crafted to prepare students ages 16-17 to stand out and succeed in new and exciting careers in veterinary medicine.

- Learn new skills to prepare for employment opportunities as veterinary paraprofessionals
- Explore various employment opportunities with remote online companies and local clinics
- Prepare for college-level courses with the introduction to veterinary medical terminology, anatomy, physiology, and pharmacology
- Enhance your college and employment applications

### COMPANION ANIMAL PREVENTATIVE HEALTH CERTIFICATE

Our Companion Animal Preventative Health Certificate reviews current and important veterinary medical standards and concepts. The course material is reinforced with case-based quizzes and learning exercises to promote thorough understanding and effective communication with clients. This course features online modules including:

- Spay and Neuter Protocols
- Reproductive Anatomy and Physiology
- Immunology and vaccination Protocols
- Routine Diagnostic Procedures
- Dental Anatomy and Care
