

RESOLUTION NO. 510

Recognizing Communities in Schools Week

WHEREAS, Snohomish County is a community we take pride in, and bringing up our children to be resilient and successful community citizens is a priority we all share, and

WHEREAS, it is common today for teachers to have to spend their valuable time working in the social service system, instead of teaching due to the lack of support systems for today's young people, and

WHEREAS, *Communities in Schools* brings into our schools the resources of the community -- including businesses, social service agencies, community organizations, health care providers, churches and volunteer groups -- to work with school staff as part of a coordinated team to provide a comprehensive network of support for all school-aged children,

NOW, THEREFORE, BE IT RESOLVED that the Everett School District recognizes the week of September 13, 1993 as *Communities in Schools Week* and urges all citizens to support the benefits of this program.

APPROVED THIS 13TH DAY OF SEPTEMBER, 1993.
