

Continuing Education Courses

Pacific Rim Institute

Coupeville, Whidbey Island

Climate and Geology of Puget Sound

June 27-28, 2011 (Limit 12 people)

1 Quarter Credit or 12 Clock Hours through SPU

An introduction to the geological factors that have shaped the landscape of Puget Sound and the complex climate that defines the structure and function of its ecological systems.

Ecology of the Lowland Forests of the Puget Sound

June 29-30, 2011 (Limit 12 people)

1 Quarter Credit or 12 Clock Hours through SPU

A hands-on study of the ecology of two Puget Sound lowland old growth forests. The focus will be on the energy flow, nutrient cycling, and animal and plant communities.

Inland Sea and Marine Life in Puget Sound

July 1-2, 2011 (Limit 12 people)

1 Quarter Credit or 12 Clock Hours through SPU

An introduction to Puget Sound, its geological history, physical structure, tidal flow, health, and marine life.

All courses will be taught by Coupeville resident and PRI board member Dr. Joseph K. Sheldon. Dr. Sheldon has 36 years of experience teaching college science and conducting research.

Cost: \$200 per course (Same textbook used for all 3 courses!)
If you would like this course to count for credit or clock hours, there will be an extra fee payable to Seattle Pacific University. Credit: \$43. Clock Hours: \$15
