Summer Technology Workshops

Workshops designed to help you learn to use technology while preparing for the first days of school!

FOR MORE INFORMATION…

For more information on these workshops contact the Everett Public Schools Information Systems and Technology Department at 425-385-4200.

EARN CLOCK HOURS

Clock hours are available for all workshops. Look for the number next to the clock symbol to determine the number of hours offered for each workshop.

EPS Staff Register On-Line at http://www.everett.k12.wa.us/crs

Building a Classroom Website   3

Experience how easy it is to make your class part of the World Wide Web. Learn the basics of the EPS Content Management System. Arrive with your content. Leave with a class web site.

Session Details:			
7/31	9 am - 12 pm	James Monroe Elementary	Computer Lab
8//21	9 am - 12 pm	James Monroe Elementary	Computer Lab

Updating Your Classroom Website   3

Want to update your Website with someone nearby to answer questions? This lab is designed to give you the opportunity to work on your Website with support. Advanced features will be presented upon request.

Session Details:			
8/16	9 am - 12 pm	James Monroe Elementary	Computer Lab
8//21	12:30 pm - 3:30 pm	James Monroe Elementary	Computer Lab
8/27	9 am - 12 pm	James Monroe Elementary	Computer Lab

Moodle Magic Plus   3-6

Discover the magic of Moodle. You will experience Moodle as a student, learn how to manage Moodle tools as a teacher, create your online class environment and share the results with the other participants. Morning covers the basics. Afternoon provides time to create your Moodle class. Come for just the morning or plan to stay the whole day.

Session Details:			
7/26	8:30 am - 3:30 pm	James Monroe Elementary	Computer Lab
8/23	8:30 am - 3:30 pm	James Monroe Elementary	Computer Lab

Google Quick Start   3

Google Docs is a perfect tool for classroom collaboration. You can create research groups so students can share their findings easily at home and school or work on group projects together or do peer review. You will learn how to create spreadsheets, documents, presentations and surveys for your classroom as well as how to share finished products.

Session Details:			
8/1	9 am - 12 pm	James Monroe Elementary	Computer Lab
8/15	9 am - 12 pm	James Monroe Elementary	Computer Lab
8/22	9 am - 12 pm	James Monroe Elementary	Computer Lab

Creating a Student Portfolio   3

Portfolios can serve as a vehicle for enhancing student awareness of the processes and strategies involved in writing, solving a problem, researching a topic, analyzing information, or describing their own observations. Electronic portfolios that use digital storage processes allow students to present information, sound, motion, and color. Learn how you can use our EPS Google Sites to have students create a portfolio that can be private or shared with a limited audience.

Session Details:			
8/2	9 am - 12 pm	James Monroe Elementary	Computer Lab

Moodle Mayhem   3

For those with a Moodle class who would like to learn more about Moodle and have lab time to work on their course with the Moodle administrator there to answer questions and help with advanced features. The course will be designed based on input from those who enroll.

Session Details:			
8/14	9 am - 12 pm	James Monroe Elementary	Computer Lab
