

TIC-TAC-TOE SUMS

Object: Be the first team to get 4 sums in a row (horizontally, vertically, or diagonally).

Divide into 2 teams (X's and O's).

1. Team O selects two addends by placing a marker on the numbers (1-12) to add. The sum is circled by placing an O on the grid.
2. Team X then moves one marker to make a new sum and place an X on the grid.
3. Teams alternate moving one marker at a time and continue placing X's and O's until a team has marked four sums in a row.
4. After several games, players should discuss their new strategies.

1	24	3	22	5	14
20	8	16	10	12	15
13	23	15	9	17	6
19	7	21	4	23	2
13	20	6	16	17	14
4	19	5	11	18	21

1 2 3 4 5 6 7 8 9 10 11 12
