

STUDENTS

Intradistrict Transfers and School Attendance Area Changes

Each student in the district is required to attend the school designated for the geographic attendance area in which he or she resides unless the student has been accepted for enrollment in one of the district's schools or programs designated by the superintendent. These schools or programs are open to district students without regard to where in the district the student resides.

School attendance boundaries may be changed in order to operate an effective and efficient educational program in those cases where estimated enrollments are in excess of a building capacity.

Parents/guardians shall be informed annually of the district's attendance area transfer option. The district shall make available for public inspection the superintendent of public instruction's annual information booklet on enrollment options in the state at each school building, the central office and local public libraries.
