Special deals on auto services

Everett Public Schools staff and students are eligible for great deals from the Auto Program at Cascade High School

“Once again it’s that time of year where the snow flies and we certainly don’t want to get caught broken down in it, so here’s what the magnificent techs of the Auto Program have to offer you,” offers [Peter Smith](#), automotive instructor at [Cascade High School](#).

- Full Vehicle Service – includes Lube Oil and Filter and a 60 point under hood and under vehicle check
- Tires – installation, rotation and inspection
- Tune checks – includes examine spark plugs, compression test (if applicable) computer scan, fuel system checks
- Brakes checks and Brake replacement/service (if necessary)
- 4 Wheel Alignment
- Transmission, power steering and brake flushing
- Winterize (check coolant level, strength and condition)
- Many other wonderful things that I can’t think of at the moment because it’s early ...

As always, our pricing works like this:

- My cost of parts (about 40% below retail) and labor of \$15 per hour at the industry flat rate.

All labor profits go to our ASB Auto Skills club for purchase of tools and equipment etc.

“Please [email](#) me to request an appointment, as always, we will provide you with a written estimate before any work is done. Keep in mind folks would have to make transportation arrangements for bigger jobs (brakes etc.). We can perform tire changes and oil changes in a day, so you’d just need to drop off your vehicle for the day.”
