

My Tio Jeff lives in Nevada, he is important to me. I see him in the summer.

Tio Jeff is always very happy to see me. We shake hands, we hug, we say hello. He loves to have boy time because he only has daughters.

We drive machines in the open soil. We always dig and drive the backhoe and sometimes we drive the water truck and hay baler for fun in the farm. Sometimes Tio Jeff lets me drive the backhoe .

On the farm, we go on the off roader to find the perfect spot for digging and I go see the chickens to collect their delicious eggs. I also ride horses with help from Jaci.

There is always something to smile about! He owns a hardware store an also he always wears a hat. I like Tio Jeff and he likes me.
