

The National Resource Center for Materials Technology Education at Edmonds Community College announces this summer's STEM Guitar Building Workshop registration fee has been reduced.

Thanks to support dollars, registration for this unforgettable workshop is now \$595!

**REGISTRATION FEE REDUCED!**

# STEM Guitar Building Workshop

**July 20 - 24, 2015**

**Edmonds Community College, Lynnwood WA**

**For Educators**

**Registration Fee Now:** **\$595** a \$200 savings!

Each faculty member will build his/her own custom electric guitar based on applied STEM learning techniques to better engage students in the topics of science, technology, engineering and math (STEM).

Participants will leave this week-long experience with their custom-made guitars, curriculum modules with short term assessments that can be immediately integrated into the faculty's school curriculum.

**YES - *you build your very own custom electric guitar!***
