# Multiplying by 12

Twelve is a ten and a two. First times 10 then add times two.

What is 12 x 7?
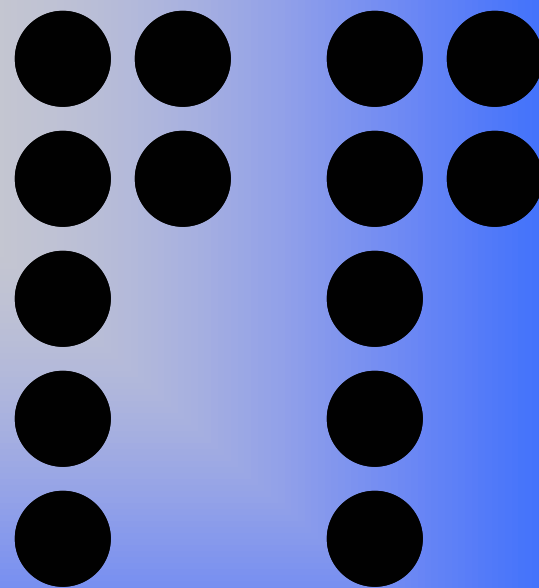

Multiply by 10 first:
10 x 7 = 70

Then add double 7:
70 + 14 = 84

+

What is 12 x 4 =

(10 x 4) + (2 x 4) =

40 + 8 = 48

Challenge:

What is 12 x 30?
12 x 14?
