Dear Colleagues:

I am sorry to have to inform you that this morning we received sad news involving another one of our students. Jackson High School freshman Autumn Hanson LaTour passed away from an accident related to an existing medical condition. Jackson leadership has shared information with their school community and is providing additional support during this difficult time.

Principal Dave Peters described Autumn as a beloved young woman who was very open and proactive in sharing with others about her seizure condition. Autumn also attended Gateway Middle School and Forest View Elementary School.

Please keep Autumn's family, her friends, and the Jackson, Gateway and Forest View communities in your thoughts as they grieve a life lost too early. I appreciate all you do each and every day to support our students, families, and each other through the good times, as well as the most challenging of times and circumstances.

Regards,

Dr. Gary Cohn
Superintendent
