Dear colleagues,

This morning we learned three Jackson High students were involved in a fatal car accident. A Cascade High School student was also in the accident and is in stable condition in a local hospital. We have not yet received permission from the families to release the names of the students at this time.

We are all incredibly shocked and saddened by this event. Our Crisis Response Team met this morning to plan how to help our students and school families with this loss.

Jackson High School has notified their staff and families and Cascade High School has notified their staff. We've made available counselors, teachers, and other helping resources so students, staff, and parents can get help if they need it. Student support will be at Jackson High tomorrow, July 27, from 10 a.m. – 2 p.m.

Our thoughts and condolences go out to these students' friends and families during this difficult time.

Regards,

Dr. Gary Cohn
