Answer: I think that in Scene 2 of the play, "The Monster in the Cave" that Odysseus want to visit the island of the Cyclopes because Odysseus want to go exploring in their land of the Cyclopes, and to see if they will give them gifts. My evidence is that it said in the play that Odysseus want to go exploring, and he went to the cave of the Cyclopes, and it have treasures in the cave.

English Language Acquisition

Annual Measurable Achievement Objectives for English Language Learners

The percentage on the AMAO-1 chart (above) represents the percent of students who grew at, or above, the expected number of points.

The percentage on the AMAO-2 chart (left) represents the percent of students who demonstrated English language proficiency by scoring a Level-4 on the WELPA assessment.

AMAO-1 and AMAO-2 charts require a minimum N of 10 students to display data.

Meeting Record

Team Name: Leadership Team

Date: Nov. 3, 1015

Time: 8:30-11:30

Location: Portable 4

Members Present:

Y	N	Name	Y	N	Name
X		Pam Laroche	X		Brenda Fuglevand
X		Stacy Crump	X		Di-Ann Mandy
X		Karen Knabe	X		Nicole Eells
X		Dani Johnson	X		Linnea Lawson
X		Julie Pfohl			
X		Zina Kincaid			

Information Sharing: (10 min.) Team members shared reasons they believe staff are still feeling stress. So much to do, so little time; Student behaviors; Higher standards results in loss of fun; Pressure from parents and social media; Aggressive parents;

Today's Discussion

Time	Topic/Discussion Points	Decisions
30 min.	Cadre Reports	<p>What is your group doing? What support do you need? Cadres are following their action plans. Good conversations are held. Brenda will be notified if staff meeting time is needed for a cadre presentation.</p> <p>Turn your notes in to Brenda after each meeting. Some are still missing from last month.</p>
60 min.	SIP	<p>Review Plans Identify steps for completion Use Science as a model, break into groups of 3 to do RWM</p> <p>Implementation plans were written for each SIP action item. Now we will calendar our staff meeting topics. Brenda will meet with Stacie, Pam to do this work.</p>
60 min.	Leaders as models	<p>Poster –what are the characteristics of a leader as a model Read Article-highlight where you see yourself Thanksgiving week proposal Leaders are confident, collaborative, willing to share, listeners, supportive, reliable, helpful, and have a positive attitude. This article further explains the characteristics of a leader. http://www.principals.in/uploads/pdf/leadership/Ten_Roles_for_Teacher_Leaders Many of us are leaders in different situations. It is easy to find ourselves in this list characteristics. We talked at length about creating a structure for staff to observe other staff. The purpose would be to model taking a risk that would assist in building trust. More information about a plan for Thanksgiving week will be shared soon.</p>

Agenda

Writing from Sources

Name Max McManis Date 11-19-16

Science/Opinion Writing Organizer

Prompt: What do you think is the most important "geological feature of the landscape to consider when selecting a site to build the TarPul? Provide evidence from *Sciencesaurus* text, pp. 170-172, video "Bill Nye: Erosion," and hands-on science experience to support your claim.

Topic Sentence/Claim: When selecting a site to build the TarPul, I think Type of soil is the most important feature of the landscape to consider.

At least ~~three~~ ^{two} Reasons/evidence supporting your opinion/claim from at least two different sources listed above. *Sciencesaurus*

First reason (start with a transition word): The first soil to eliminate is sand. Sand can be blown away by the wind.

Second reason (start with a transition word): The next soil to eliminate is organic soil because I did a test and rocky soil and organic soil.

Third reason (start with a transition word): The last soil to eliminate is gravel. In a book my class read, it said gravel did not hold a better pile.

Concluding Sentence that restates your opinion using a transition word: As you can see, the type of soil is not important. I think the TarPul should be in rocky soil (not gravel).

geological feature: curve of the stream, type of soil, level of soil compaction, of the land by the stream, etc.

Problem Solving in Math

Word Problem Check list

Creators Matthew and Genoa

We created a problem that is

- ☒ solvable
- ☒ more than one step
- ☒ has enough information
- ☒ makes sense
- ☒ not too hard
- ☒ has matching info

Creating a Word Problem

Who created the problem? (Names)

Matthew and Genoa

Who are the characters or What are the subjects?

Bob

What do you want the problem solvers to know (Items or Amounts)?

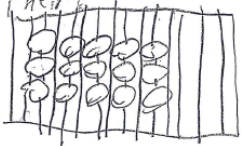

Making burgers 6 cheese
is total burgers 1 more hamburger than B. Burger

What is supposed to be solved?

How much of each burger
are there?

Write out the problem:

Bob is Making 15 burgers. There are 6 cheese
burgers. There is 1 more Hamburger than
Bacon burgers. How many of each kind of
burger is there?

Great word problem! You both
clearly followed directions. Nice collaborative
work! (3+)

Solvers Ruth and Zack

To solve the problem we

- ☒ showed our thinking though a strategy
- ☒ we answered each question in the box
- ☒ we came up with a reasonable solution
- ☒ We answered the last question

Who is solving? (Names) Ruth and Zack

Re-Write the Problem

Bob is making burgers there is 6 cheese
burgers there 1 more hamburger than
bacon burger

What are you finding?

How many of
burgers there
are.

What do you know?

6 cheese, 1 more ham
than bacon, 15
burgers

Show the problem?

Solution?

6 cheese
4 bacon
5 ham

What strategies did you use?

Show the Problem

- ☒ Draw a Picture
- ☐ Make an Organized List
- ☐ Make a Table
- ☐ Make a Graph Act It Out/Use Objects Look for a Pattern

☒ Try, Check, Revise

- ☐ Write an Equation
- ☐ Use Reasoning
- ☐ Work Backwards
- ☐ Solve a Simpler Problem

Were you able to solve the problem? Why or Why not?

Yes because we drew a picture and
we Tried, checked, and Revised (3+)

*Great work!
You worked together
and solved
this tough
problem*
