

Modified Lockout Yellow

Used if there is a potential threat in the community but **NOT** near the school.

- An administrator will advise over the intercom that we are going into a modified lockout, code yellow.
- As a teacher, check the halls for students and get any students into your classroom. Lock the doors and windows and then continue teaching.

Lockout Orange

Used if there is a potential threat in the community **near** the school.

- An administrator will advise over the intercom that we are going into lockout, code orange.
- As a teacher, check the halls for students and get any students into your classroom. Lock doors, cover windows, turn off any lights, and have students sit out of sight silently.

Run, Hide, Fight Red

Used if there is an armed intruder **inside** the building.

- Any teacher can advise of this over the intercom and should state there is an armed intruder **by _____ (classroom the teacher is announcing from), code red.**
- As a teacher, determine, based on location of announcing room, if you should barricade your classroom or evacuate.
- In the event of an armed intruder, there will be no all-clear announcement over the intercom. **Police will have taken over and will be going room to room to evacuate.**
