

Coronavirus Update
March 11, 2020

Dear Families:

We appreciate your partnership and support as together we navigate this unprecedented health crisis in our community. In our response to the Coronavirus – COVID-19, we have been following the guidance of Snohomish Health District and the Department of Health and implementing preventive and responsive strategies. As we have shared many times, our goal has been to keep our students in the classroom learning as long as possible. Our incredible school staff, school leaders and central support staff have been unwavering in this commitment. We appreciate their service to our community, children and families.

In light of Governor Inslee's and County Executive Somers request that all citizens practice measures to slow the spread of COVID-19, it is now time to plan for alternative ways to serve our community and families.

Beginning Monday, March 16 all schools in the Everett School District will be closed though at least March 27. We will reevaluate further at that time. Go to www.everettsd.org/covid-19 for full message sent to school families and staff.

Students will be in school tomorrow and Friday, March 12 and 13. Friday is a LIF. This will allow students to collect learning materials they might need and bring home any personal items they might want while schools are closed.

More information will be provided daily into the near future. Thank you again for your support as we all work together to do what is best for our students, staff and families.

Sincerely,

Dr. Ian Saltzman
Everett Public Schools
