

For any test that has the Text to Speech option enabled, students can access **Text To Speech** by following the directions below:

1. Students should click on their initials in the top right corner and selecting Accessibility

2. From there, they can select Text to Speech in the Accessibility Settings box and click the **On** button.

3. Once activated, the Text to Speech options bar will appear at the top of their assessment. Students should use the point indicator to indicate where the Text to Speech should begin dictating.

4. When a test has multiple sections, students will need to adjust this setting for each section.
