

Assessment & Research

Accessing i-Ready Projected Proficiency

1. Select Reports
2. Select Diagnostic
3. Select Reading or Math under Diagnostic Results

The screenshot shows the i-Ready Reports menu. The "Reports" dropdown is highlighted with a green box. Below it, the "Diagnostic" option is highlighted with a green box. The "Diagnostic Results" option is also highlighted with a green box. The menu includes options for "Instruction", "Standards Mastery", and "All Exports".

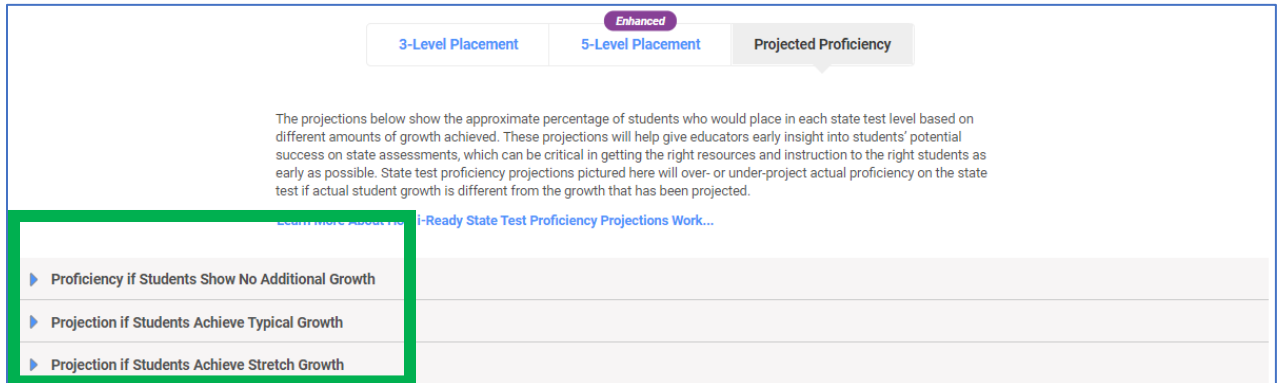

4. Select the Projected Proficiency Tab

The screenshot shows the i-Ready Diagnostic Results page. The "Projected Proficiency" tab is highlighted with a green box. The page includes filters for "Subject" (Reading), "School" (Elementary School), "Academic Year" (Current Year), "Diagnostic" (Most Recent), and "Prior Diagnostic" (None). The "Projected Proficiency" tab is highlighted with a green box.

5. Select the Region and/or School

The screenshot shows the i-Ready Diagnostic Results page with the "Projected Proficiency" tab selected. The "Subject" (Reading) and "School Group" (Region Two) filters are highlighted with a green box. The "School" filter is also highlighted with a green box. The "Academic Year" (Current Year), "Diagnostic" (Most Recent), and "Prior Diagnostic" (None) filters are also visible.

6. Select which measure you would like to review for the district:
- Proficiency if Students Show No Additional Growth
 - Projection if Students Achieve Typical Growth
 - Projection if Students Achieve Stretch Growth

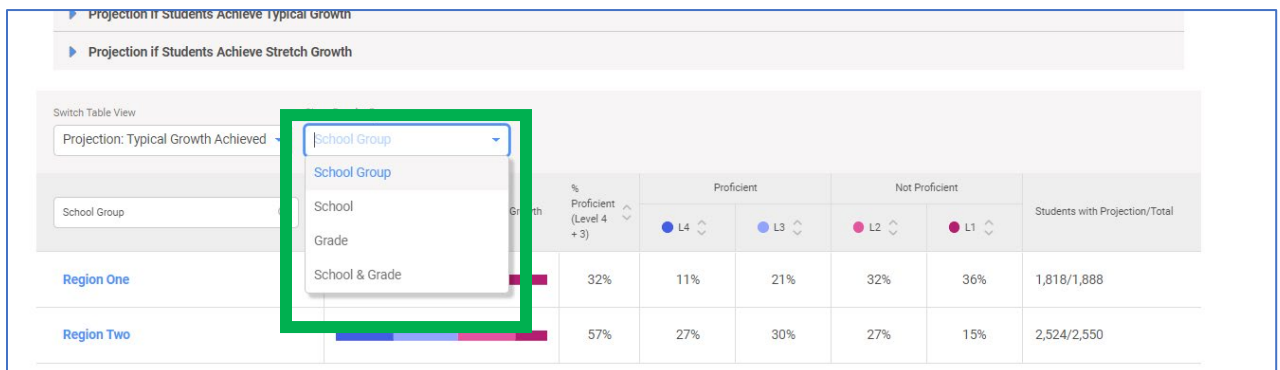

The projections below show the approximate percentage of students who would place in each state test level based on different amounts of growth achieved. These projections will help give educators early insight into students' potential success on state assessments, which can be critical in getting the right resources and instruction to the right students as early as possible. State test proficiency projections pictured here will over- or under-project actual proficiency on the state test if actual student growth is different from the growth that has been projected.
