

Strategic Plan Initiative

EQUITABLE ACCESS — C.1.c: Ensure classroom technology is standardized across the district and professional learning is provided.

SUMMARY — By providing standardized technology and the professional development to use it, this initiative links to the Equitable Access theme of the strategic plan, which supports the six priority student outcomes.

COMPLETED:

- ✓ Defined and deliver baseline technology kit district-wide
- ✓ Distributed flat panels district-wide
- ✓ Provide ongoing Professional Development for technology

RESOURCE LINKS:

- Flat panel video
- Parent University panel video
- Sound enhancement video
- Standard classroom technology images
- Strategic plan link

“Through implementation, professional development and support we ensure all students have the same access to digital technology. Having equitable access to technology makes a world of difference in how students see what their possibilities can be.” - Director of LITS Todd Koren

STUDENT IMPACT:

- “Every student at every school has access to the same technology”
- “The technology allows for interactive lessons, seeing larger space in living color, students have become more engaged”
- “Students live in a world of technology, and they need to see that in the classroom”

TEACHER IMPACT:

- “The technology available enables better engagement and interactivity with the students. We can tap into creativity, and there are infinite possibilities, and it is available for all students.”
- “Panels have allowed me to get student voice out more, multiple students can come up and use it at the same time so they can put their own thoughts up, not just my interpretation of their thoughts.”
