

CONSTRUCTION MANAGER

Classification: Professional-Technical Level 6

Location: District Office

Reports to: Director Facilities & Planning

FLSA Status: Exempt (Executive)

Employee Group: Professional-Technical

This job description does not constitute an employment agreement between the district and employee and is subject to change by the district as the needs of the district and requirements of the job change.

Part I: Position Summary

Responsible for planning, management, and supervision of district construction projects with limited supervision, for both new, or extensive modernizations to, schools and education support facilities. Includes a primary responsibility for assuring that projects are responsive to all stakeholders and most importantly, to the district's educational needs and purposes. Responsible for assuring effective project management of construction to meet timelines, achieve economy and efficiency, and provide for safe construction operations.

Part II: Supervision and Controls over the Work

Serves under the supervision of the director of facilities & planning. Is responsible for results in terms of effectiveness of planning and supervision for achievement of project goals and objectives. Work is guided by, and must be in compliance with, federal and state law, city and county codes, regulations and procedures, policy direction of the school board, expectations and direction of the supervisor.

Part III: Major Duties and Responsibilities

1. **Planning and Programming:** Stays abreast of the development, operations, and innovations in the field of school design, construction and capital project management and changing national, regional and local trends that may impact project effectiveness. Participates in discussions on demands and expectation for capital projects being supervised and the impact those demands and expectations will have on project management. Maintains a program of monitoring and inspection that will assure early awareness of problems, issues, and challenges that may impact project accomplishment. Applies project management software to assist in project planning and management.
2. **Contracting and Financial Management:** Participates and/or leads the development of bid specifications, review of construction bids, assessment of bidder capabilities, and the recommendation of bid awards. Monitors the approved budget as the project progresses. Takes the initiative to recognize cost issues in a timely manner and to develop recommendations and strategies to assure effective management of the capital investment. Administers the approved budget and reviews and approves contractor payments in compliance with budget decisions, program objectives and priorities, and district financial management and fund control processes and procedures. Applies financial software systems to approve, track, and achieve and sustain effective project management.

3. Representation and Negotiations: Negotiates and administers contracts with engineers, architects, contractors and consultants. Participates in or leads project planning, progress reviews, and implementation in collaboration with contractors and sub-contractors. Continually monitors the progress to identify when changes are needed. Takes action to meet and negotiate with contractors on changes and modifications to maintain progress, design, and financial objectives.
4. Supervision: Works collaboratively with individuals, committees, groups and contracted personnel in the successful execution of the project. May supervise office and project staff and or special teams of district staff assisting in facility preparation.
5. Safety: Responsible, in collaboration with other district staff and contractor staff, for operational safety and security of project sites. Establishes procedures and controls to assure the safety of staff and students in occupied renovation sites. Serves as first responder to emergency and after hour situations involving the project(s).
6. Performs other duties as assigned.

Part IV: Minimum Qualifications

1. Must have experience working or interacting successfully with culturally diverse families and communities, or have otherwise demonstrated a commitment to strengthening engagement of a diverse community and skill in communicating with a diverse population.
2. Minimum of two-years of college study in construction management, architecture, business or directly related field that provided the knowledge and skills to conduct project management.
3. Minimum of five years of capital construction project management experience including a working knowledge of building technology, construction practices, FFE (furniture, fixtures and equipment), plan reading and master format specifications.
4. Knowledge and skill in the use of technology systems to support project and financial management.
5. Knowledge of applicable building codes, land use, local and state permitting and public works requirements.
6. Strong analytical, program management and supervisory skills.
7. Strong oral, written and interpersonal communication skills.
8. Ability to work both independently and collaboratively.
9. Ability to organize work, set and adjust priorities, and meet deadlines while managing multiple projects.
10. Ability to establish effective working relationships at all levels of the organization.

CONSTRUCTION MANAGER

11. Demonstrated leadership and supervisory ability.
12. Innate desire for continuing education in the ever-changing construction and educational industries.
13. Ability to safely operate district equipment and vehicles.
- 14.

Part V: Desired Qualifications

1. Bachelor's degree or higher degree in construction management, architecture, engineering, business, management, or related fields.
2. Successful construction management experience in a public educational environment.

Part VI: Physical and Environmental Requirements of the Position

The physical demands and work environment described here are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.
