

Response/Action Required

March 4, 2022

To: Elementary Principals and School Office Staff
From: Anne Arnold, Director of P-5 Instruction/Early Learning Programs
Jana Sanchez, P-5 Instructional Facilitator – STEM
Judi Goldman, P-5 Instructional Facilitator - STEM
Regarding: **Update on Math OEL Labs**

To support the implementation of Illustrative Math, we are scheduling Observing for Evidence of Learning (OEL) labs now. Below is information about how to schedule a lab for your school. The OEL lab cycle includes: Co-Planning – Co-Teaching – Debrief/Reflection – Follow-Up Coaching Cycle

Due to the sub shortage, there will be no subs provided for OEL labs. We can be thought partners about how to cover classrooms for the co-teaching portion as well as times for planning and debriefing.

The focus area for this work is increasing student discourse and implementation of the lesson structure: Launch – Work – Synthesize. Contact Jana Sanchez to schedule an OEL lab.

Required Action:

Principals:

- Contact Jana Sanchez to schedule an OEL lab for your school. Ext. 4037
