

Elementary Summer Learning and Fall Celebration Plans 2024

This year's Summer Learning theme is "**Summer's Greatest Hits.**" Similar to last year, we will continue our focus on reading, math, and science learning opportunities, all of which will be available to students and families on the [Summer Opportunities website](#) on May 24. In addition, students will be encouraged to access public libraries and participate in their summer programming.

Name of person completing this form *

Fabulous Assistant Principal

Contact person at your school for Summer Learning *

Wonderful Librarian

Provide a short description of your plan for launching Summer Learning. *
(consider how you might orient students to the district website, public library programs and the summer tracking form and who might lead or assist with these)

We are creating a short video that teachers will share with their classes, email home, and that we will include in the school newsletter to launch Summer Learning. It will show how to find Dr. Saltzman's video, where to find the activities, what the first activity looks like, and describe how to track participation. We will also share our schedule for celebrating participation during the summer with popsicles.

How will students track their participation during the summer? *
(each school will submit final student participation data through the School Participation digital survey available in the fall. Total numbers of students participating by grade level will be required data entered into the digital survey)

- ☐ Digital Form on website
- ☒ Summer Activity Card - paper form
- ☐ School created form
- ☒ Other

If you chose "Other" in the previous question, please specify the details. *

We will have popsicles available at the school on scheduled dates to students during the summer if they come tell us what they did!

Provide a short description of your fall celebration of learning. *

(some ideas might include: school wide or grade level assemblies, class parties, day of celebrating our learning and books we read, purchase student recommended books and library celebrations, names of participants in teacher newsletters, highlighting of activities completed, movie night)

We will have class parties and provide pencils and bookmarks for students who participated in the summer learning opportunities.

What do you estimate your celebration will cost? *

(elementary schools have \$1250 available for celebrations. Celebrations should be concluded by November 1st)

We estimate it to cost \$1000
