Welcome to kindergarten in Everett Public Schools. The health and safety of your child is of highest priority to us. For this reason, we have a team of experienced and skilled registered nurses (RNs) who oversee health services in the schools. We also have health room assistants (HRAs) in each school, who function under the supervision of the registered nurse, to attend to the daily health needs of all students. The RN is always available for consultation for health issues that arise. The school's HRA or office manager can assist in scheduling a time for you to discuss your child's health issue with the RN.

Annual Health History Form

To ensure the safety of your child, we require an Annual Health History Form each school year. A copy is included in this enrollment packet. We strongly recommend that you provide us any health information or health concerns on this form. Information on this form is kept confidential and is used by our RNs to determine the health needs of your child.

Does your child have a life-threatening health condition?

Washington State defines a "life-threatening condition" as a health condition that will put the child in danger of death during the school day if a medication or treatment order and a nursing health care plan are not in place. Examples of health conditions considered life-threatening include any allergy requiring epinephrine, asthma, diabetes, and/or a seizure disorder. The following is a list of requirements that a child with a life-threatening health condition must have in place before they can attend school, which includes attendance at Everett Ready in August:

- A completed Medication Authorization Form signed by the child's medical provider, and/or
- A completed Treatment Authorization Form signed by the child's medical provider, and
- A completed nursing health care plan individualized to your child.
- A supply of the ordered medication, in its original and properly labeled container.

My child needs medication(s) at school. What do I need to do?

Under normal circumstances medication should be dispensed before and/or after school hours under the supervision of the parent or guardian. Medication is defined as any medication prescribed or non-prescribed; including over-the-counter items, vitamins, homeopathic, creams and/or oils. Medication should be given at school only when absolutely necessary. If a student has a valid health reason which requires medication administration during the hours when school is in session, the parent/guardian must:

- Submit a completed Medication Authorization Order Form to the school health room.
- Supply the ordered medication in its original and properly labeled container.

As a reminder, **no medication can be given at school without meeting the above requirements.**

We welcome any questions about health issues and urge you to contact your school if you would like to speak with your school's nurse. Additionally, please notify your child's school throughout the year regarding any change in contact numbers or health conditions.

Sincerely,
The Everett Public Schools Health Services Team

Instructions for completing the Certificate of Immunization Status (CIS): Print the from the Immunization Information System (IIS) or fill it in by hand.

To print with the immunization information filled in:

Ask if your health care provider's office enters immunizations into the WA Immunization Information System (Washington's statewide registry). If they do, ask them to print the CIS from the IIS and your child's immunization information will fill in automatically. You can also print a CIS at home by signing up and logging into MyIR at <https://wa.myir.net>. If your provider doesn't use the IIS, email or call the Department of Health to get a copy of your child's CIS: waisrecords@doh.wa.gov or 1-866-397-0337.

To fill out the form by hand:

1. Print your child's name and birthdate, and sign your name where indicated on page one.
2. Write the date of each vaccine dose received in the date columns (as MM/DD/YY). If your child receives a combination vaccine (one shot that protects against several diseases), use the Reference Guides below to record each vaccine correctly. For example, record Pediarix under Diphtheria, Tetanus, Pertussis as DTaP, Hepatitis B as Hep B, and Polio as IPV.
3. If your child had chickenpox (varicella) disease and not the vaccine, a health care provider must verify chickenpox disease to meet school requirements.
 - ☐ If your health care provider can verify that your child had chickenpox, ask your provider to check the box in the Documentation of Disease Immunity section and sign the form.
 - ☐ If school staff access the IIS and see verification that your child had chickenpox, they will check the box under Varicella in the vaccines section.
4. If your child can show positive immunity by blood test (titer), have your health care provider check the boxes for the appropriate disease in the Documentation of Disease Immunity section, and sign and date the form. You must provide lab reports with this CIS.
5. Provide proof of medically verified records, following the guidelines below.

Acceptable Medical Records

All vaccination records must be medically verified. Examples include:

- A Certificate of Immunization Status (CIS) form printed with the vaccination dates from the Washington State Immunization Information System (IIS), MyIR, or another state's IIS.
- A completed hardcopy CIS with a health care provider validation signature.
- A completed hardcopy CIS with attached vaccination records printed from a health care provider's electronic health record with a health care provider signature or stamp. The school administrator, nurse, or designee must verify the dates on the CIS have been accurately transcribed and provide a signature on the form.

Conditional Status

Children can enter and stay in school or child care in conditional status if they are catching up on required vaccines for school or child care entry. (Vaccine series doses are spread out among minimum intervals, so some children may have to wait a period of time before finishing their vaccinations. This means they may enter school while waiting for their next required vaccine dose). To enter school or child care in conditional status, a child must have all the vaccine doses they are eligible to receive before starting school or child care.

Students in conditional status may remain in school while waiting for the minimum valid date of the next vaccine dose plus another 30 days time to turn in documentation of vaccination. If a student is catching up on multiple vaccines, conditional status continues in a similar manner until all of the required vaccines are complete.

If the 30-day conditional period expires and documentation has not been given to the school or child care, then the student must be excluded from further attendance, per RCW 28A.210.120. Valid documentation includes evidence of immunity to the disease in question, medical records showing vaccination, or a completed certificate of exemption (COE) form.

Explanations

The federal Family Educational Rights and Privacy Act (FERPA) allows school districts to define “directory information,” and then share only that information unless you request the information not be shared.

If you check “NO” for an item on the first page, we cannot and will not share the information you specified. When we are asked for “directory information” about a student, we share only the information needed for that purpose. We usually only share the student’s name, age or grade and school.

1. Information used in district publications, online and by outside media

Directory information is: student’s name, grade level, dates of enrollment, degrees and awards, participation in officially recognized activities and sports, weight and height of members of athletic teams, schools attended in the district, school work, and photographs per [Policy 3250](#).

We share good news about student achievement and honors. This includes showing student work in print and online. It can mean displaying student work in a public place and sharing student achievement information with news outlets. We never knowingly release information about a student to anyone who wants to use it for commercial reasons. We only share student addresses or phone numbers when such requests come from the military or institutions of higher learning (as explained below).

2. Information for military and colleges (applies to high school students only)

The military and institutions of higher learning request high school students’ directory information and, by federal law, we must also provide the student’s address and phone number. In addition, we participate in [guaranteed admissions programs \(GAP\)](#) with colleges and universities. Email addresses on record, the student’s cumulative GPA and a copy of the student’s transcript are provided to the institutions participating in the GAP program. We provide that information on or about October 15 each year to these groups. If you check “NO” in Section 2 on the first page, and if we receive your form by October 1, we will not release your student’s directory information. If your student’s form is returned after October 1, be aware that we may have already released your student’s information per [Policy 3250](#).

All district policies and procedures are available [online](#).

- [Policy 3245](#) and [Procedure 3245P](#) – “Technology.” Internet Access information is under section *Student Access and Use of District Technology*.
- [Policy 3250](#) – “Release of Student Directory Information” includes more details about student directory information.
- For more information about directory information, call the communications department at 425-385-4040.
