

Rave Panic Button Activation Request

Employee ID# _____ Name: _____

Department/School/Site: _____

Current Position: _____

District Email: _____ Cellphone: _____

What exactly happens when I press one of the emergency buttons inside the Rave Panic Button app?

When any one of the emergency buttons is pressed, your phone will dial 9-1-1. At the same time, the Panic Button app determines whether you are on a campus you are associated with. If so, emergency notifications will be automatically generated to campus administrators, school resource officers, and other designated officials and employees. In addition to your call, the 9-1-1 call taker is provided with additional information about your campus, such as floor plans and maps, and also given the ability to send additional emergency notifications to key staff or to every authorized employee on campus, depending on the situation.

1. Access to the Rave Panic Button app is granted through Safety & Security.
2. Access is granted to Everett Public Schools employees only.
3. Users are PROHIBITED from sharing Rave notification information with non-employees.

****MESSAGE AND DATA RATES MAY APPLY DEPENDING ON YOUR INDIVIDUAL CELLPHONE PLAN. IF YOU WOULD LIKE TO OPT-OUT OF MESSAGING (TEXT/EMAIL), PLEASE CONTACT ANNA JACOBSEN (x5228) TO BE REMOVED FROM THE SYSTEM AND/OR RESPOND WITH "LEAVE/STOP" TO MESSAGES.**
