EHS Community:

Every November, our school community led by the students in our Leadership classes and their teacher, Ms. Chaffee, take on the task of feeding families in our community at Thanksgiving. This month-long event is truly amazing. Every classroom adopts one or two families and provides them with enough food for two weeks. This year we will be feeding about 85 families in our community. Even with all that, last year we collected enough extra food to fill a panel truck and two pick up trucks with food for our local food banks. The morning of delivery is an awesome sight to behold. It is so wonderful to see the result of our students' hard work. I know that many of you volunteer to be a driver for your student's class. Thank you for that gift of your time!

Right now students are collecting non-perishable items and cash donations. The cash is used to buy perishable items. Any extra money goes for Safeway gift cards which can only be used for food. One of the challenges we have each year is buying enough turkeys. If you can donate a turkey, please contact Casey Chaffee at cchaffee@everettsd.org. These are the most expensive perishable item. When we get donations of turkeys, more money can be spent on things like milk, eggs, vegetables and fruit.

Thank you so much for donating to this cause. There are so many families in need right now in our community.

Have a great weekend! I hope you will come out support one of our athletic teams as they move forward in the district and state competitions.

Catherine

Veterans' Day

On November 12th, we will be having our annual Veterans' Day assembly. Our guest speaker this year is Kitara McClure. In addition, the NJROTC Cadets will be performing a color guard ceremony and veterans in the community and on staff will be honored.

[Back to the top](#)

Coffee With the Principal:

Every year we schedule some opportunities for small groups of parents to meet with me. This is a chance to ask questions and talk about our programs at EHS. If you are

interested in doing this, please contact our Volunteer Coordinator, Louise Uriu, at luriu@everettsd.org . Please let her know if you would prefer an evening or morning time. We keep the group to 8-10 people but will schedule as many as needed to meet parent interest.

[Back to the top](#)

Scholarships:

Money for college is available for Everett High School students. The deadline for the Everett High School Scholarship Application is Thursday November 12th. Forms can be downloaded off the Everett Public Schools scholarship website:

<http://www.everett.k12.wa.us/counseling> The forms must be completed and returned to Ms. Elder in the Career Center (Room 107) by the 12th. Recipients of many of the scholarships that are given to EHS students in the spring are chosen from those who complete this application form. If you would like your student to be considered for those scholarships don't delay, have them complete the scholarship application today.

Please contact Barb Elder (425-385-4436) in the Career Center or Norm Lowery in the Counseling Center (425-385-4421) if you have any questions.

[Back to the top](#)

Snow Bus Routes:

It is that time again! Winter always brings some inclement weather - as we all found out last night! The transportation department has just published the [school bus snow routes](#) on the Web site. If your family, or students you know, ride a school bus, please take time to learn what a "buses on snow routes" announcement means to their ride to school on bad weather days.

[Back to the top](#)

EHS - State Universities Course Equivalencies:

Each year, I get many questions about how College in the High School, UW in the High School, Tech Prep and Advanced Placement courses are considered for credit at different universities. Out of state universities each have their own process for accepting transfer credit. You should consult with them about course equivalencies as early as possible. I have attached charts which show how transfer courses are accepted at Western Washington University, Central Washington University, University of Washington and Washington State University.

Keep in mind that these challenging options are always a good option despite whether or not they transfer for credit because colleges look at the level of courses applicants took in high school as well as the grade. Generally, a slightly lower grade in a challenging course is better than an A in a low level course.

Resources from the Intervention Specialist:

Is My Teen's Attitude and Behavior Normal?

From mood swings to risk taking, "normal teenage behavior" can appear to be anything-but-normal to parents and other bystanders. However, new research reveals that patterns of brain development during these formative years play a significant role in shaping your teen's personality and actions.

You've come to the right place if you're one of the millions of parents who have ever wondered:

- "Who is this kid?"
- "Why does my teen do that?"
- "What can I do?"

Through the use of video, interactive segments, scenario-based role-playing experiences, and practical advice from experts, A Parent's Guide to the Teen Brain explores the science behind teenage brain development and how it shapes normal teenage attitude and behavior. Find tools and tips at <http://www.drugfree.org/TeenBrain/science/index.html> - all designed to help you connect with your teen. Gain insights into teen brain development and apply your new knowledge of normal teenage behavior to real life.
