RECOMMENDATIONS

1. By adding as many as 15 team spots for middle school girls, the percentage of females participating in athletics would increase by 2% and the percentage of males participating in athletics would decrease by 2%. This could be accomplished by adding a third volleyball coach at each middle school, thus providing more opportunity for females to participate in volleyball. The approximate cost of this addition will be \$13,000, depending on the experience of the coach. There would be no additional transportation costs.
2. Continue to support a girls soccer "C-Team" at each high school. Presently only Jackson High School offers a girls C-team. Adding a C-team at Cascade and Everett will lead to more girls participating in a sport.
3. In 2014-15 each high school saw a dramatic increase in the number of students trying out for boys soccer. Many of these students come from immigrant families where English is not their first language. Adding a C-team for boys soccer at each high school may lead to an increase in participation and school engagement for ELL students and their families.
4. In order to add opportunities of interest for females and ELL students in general, it is recommended that middle school boys and girls soccer be added as a WIAA sponsored sport. Adding girls soccer will increase the number of girls involved in athletics. Adding boys soccer will offer a sport traditionally enjoyed by boys from diverse backgrounds.
