**Public Content****Situation**

The Associated Student Body (ASB) budget is the consolidation of the individual school budgets from five middle schools and four high schools. The budgets are developed by student leaders at each school under the guidance of their respective ASB advisors. The total proposed ASB appropriation for 2017-18 is \$3.1 million to support student activities, athletics, community service projects, and philanthropic contributions. The high school ASB budgets comprise the majority of the total budget (\$2.6 million) and, accordingly, the ASB officers from each high school will provide the board with a presentation of their preliminary plans. Should any revision be necessary, the students have ample time to make final adjustments prior to the end of the 2016-17 school year. Formal adoption of the ASB fund is scheduled for August 29, 2017, along with other district funds.

**Background**

The board is responsible for the protection and control of student body financial resources just as it is for other public funds placed in its custody. The financial resources of the fund are for the benefit of students. Student involvement in the decision-making processes related to the use of these funds is an integral part of the Associated Student Body. Moneys raised by students through recognized student body organizations are deposited in and disbursed from this separate fund. The fund is subject to management and accounting procedures, which are similar to those required for all other district moneys. ASB constitutions, approved by the board of directors, provide for participation by ASB representatives in the decisions to budget for and disburse ASB moneys.

**Prior Action**

The board of directors heard presentations by student officers on the Associated Student Body budget for 2016-17 at the May 10, 2016 regular board meeting. The board adopted the ASB budget on August 23, 2016, along with other district funds.
