

# Frontline: Management System

## Getting Started

## Getting Started

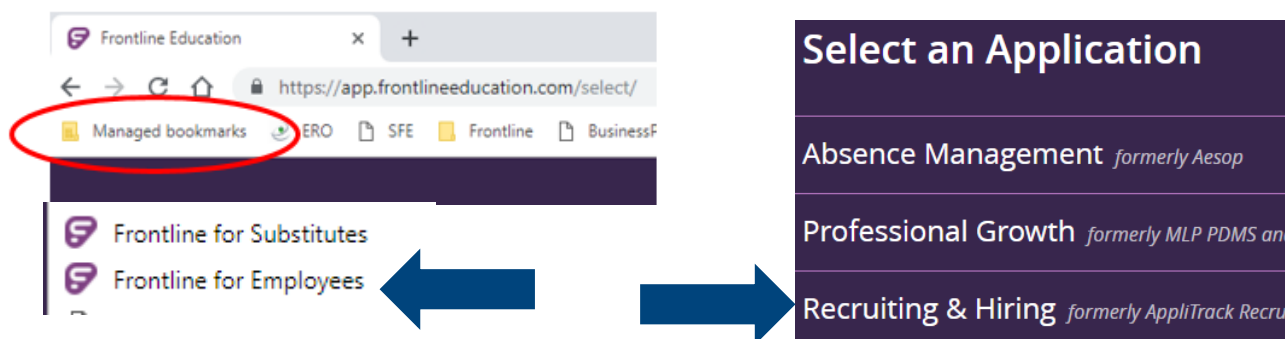

### Accessing your Frontline Recruiting & Hiring Account

#### Single Sign On (Active Directory)

Active employees and substitutes working in Everett Public Schools may log into the Frontline Education using single sign-on technology. No credentials are required if you are logged into the district network or on a district computer.

If you are substituting in another districts, you will not be able to use SSO, as it will disrupt the account links you have with other districts using Absence Management.

The new link can be found in Google Chrome EPS Managed bookmarks > Frontline for Employees

<https://login.frontlineeducation.com/sso/everettsd> Update all personally saved bookmarks on all your devices, the old link will not be as easy to log into your Frontline account. If you do find yourself on the old login page, click the link to Sign in with Organization SSO, this will be your district email address.

You will receive this popup if you are outside of the district network.

Simply use your district credentials to access Frontline Education.

Please email or call Ingrid Stafford if you need assistance with your account login.
